Intermediate Accounting For

Dummies McGraw-Hill/Irwin Intermediate Accounting, 3e, by Spiceland/Sepe/Tomassini will gain support in traditional and technology-driven accounting departments, especially those looking for a more concise, decision-making text that reinforces challenging concepts via CD-ROM. The revision of this text is based around a "Learning System." The revision of this "Learning System" was built on improving the clarity of the chapters, emphasizing more

decision-making in order to prepare students for the changes taking place on the CPA exam, acknowledging the diversity of students and their learning styles by creating supplemental materials to assure the success of every student, and creating a consistent text and supplemental package for both students and instructor's giving us the best possible intermediate text on the market. Returning to the Third edition is the award winning "Coach" CD-ROM. The Coach CD-ROM is a multimedia product integrating audio and video clips, animated illustrations, cases, and

alternative reading material that helps students comprehend some of the more difficult topics associated with intermediate accounting. Designed specifically for the Spiceland text, instructors and students will find these learning tools placed strategically throughout the text. This is the most comprehensive Learning System in Intermediate Accounting. At only 1120 pages (300 pages less than the average intermediate accounting text), Spiceland/S/T has not sacrificed content for pages. Instead, the authors have created a very flexible text with a student friendly writing style that focuses on

<i>Intermediate Accounting</i> McGraw Hill Professional Adopters and reviewers praise <i>Intermediate Accounting, 4e</i> , by Spiceland/Sepe/Toma ssini for its superior readability, strong supplements package/learning system, good EOC, real-world flavor,	and high student engagement. SST 4e will gain support in both traditional and progressive accounting departments, especially those looking for a more concise, decision-making text that reinforces challenging concepts. At 1250 pages (200 pages shorter than the market leader), SST	sacrificed content for pages. Instead, the authors have created a flexible text with a student friendly writing style that focuses on explaining not only how to apply a procedure, but why itâ€™s applied. SST 4e is built around a â€œLearning Systemâ€ designed to prepare students for the new CPA exam and the

business world, by emphasizing decision making. Acknowledging the diversity of students and their learning styles, the authors have created a clear text and varied supplemental materials to aid the success of every student. SST 4e also provides a flexible and consistent supplemental

package for instructors. Akademisyen Kitabevi M: Finance was developed for the undergraduate corporate finance course and designed with today's student in mind. With years of teaching experience as well market development, the author team developed a text to reflect that this critical course covers so many crucial topics and that instructors need to focus on core ideas to ensure that students are getting the preparation they need for future classes—and for their lives beyond college. The

framework for M: Finance emphasizes three themes: (1) Finance is about connecting core concepts, (2) Finance can be taught using a personal perspective, and (3) Finance focuses on solving problems and decision making. The text also features concise chapters that lead students to crucial material by emphasizing core concepts, key research, and current topics. Personal examples in the text explain the concepts' relevance to students' lives, increasing their motivation to learn more. Because finance focuses on problem-solving and decision

making, this text includes numerous exercises that target various learning styles. Fundamentals of Advanced Accounting W. W. Norton Power System Analysis provides the basic fundamentals of power system analysis with detailed illustrations and explanations. Throughout the book, carefully chosen examples are given with a systematic approach to have a better understanding of the text discussed. It presents the topics of power system analysis including power system modeling, load flow studies, symmetrical and

unsymmetrical fault analyses, stability analysis, etc. The book is principally designed as a self-study material for electrical engineering students.* Cogent and lucid style of presentation.* Clear explanations of concepts with appropriate illustrations.* Examples with detailed explanations.* Systematic, step-by-step approach to solved problems.* Short-answer questions to recapitulate the basics.* Exercises at the end of each chapter for self-practice.* Solution to university questions for better scoring.

Don't you love those moments in your course when students are fully engaged? When the Aha! revelations are bursting like fireworks? The Financial Accounting author

team has developed a concise and well-organised learning framework to show students that accounting consists of three major processes: measuring, communicating, and decision making. By consistently tying each lesson into this framework, instructors can significantly improve student engagement and outcomes. For the fifth edition, the authors have retained popular digital features such as General Ledger Problems, Excel Simulations, and algorithmic end-of-chapter questions, while also including new content based on skills

today's students need. New features in the fifth edition include Applying Excel problems, enhancing decision maker's content by developing auto-graded cases, and expanding video content with new Concept Overview Videos. Building on the success of the first four editions of Financial Accounting, this new edition will motivate, engage, and challenge students. Paired with the market-leading power of the Connect platform, Spiceland, Thomas, Herrmann, Financial Accounting will truly illuminate the financial accounting course for each

student.
