Internal Combustion Engine Fundamentals
By John Heywood by a leading authority in the field, presents a fundamental and factual development of the science and engineering underlying the

design of combustion engines and turbines. An extensive illustration program supports the concepts and theories discussed.

3Q: John Heywood on the future of the internal combustion ...

In 1798, John Stevens built the first American internal combustion engine. In 1807, French engineers Nic é phore Ni é pce (who went on to invent photography) and Claude Ni é pce ran a prototype internal combustion engine, using controlled dust explosions, the Pyr é olophore. This engine powered a boat on the Sa ô ne river, France.
