Global Business Today sets the standard for International Business courses and is the proven choice at both the undergraduate and graduate level. It offers a complete solution that is relevant (timely, comprehensive), practical (focused on applications of concepts), and integrated (logical flow of topics from chapter to chapter). The success of the first eleven editions (and its longer, more in-depth textbook option, International Business, now in the 13th edition) was based on the incorporation of leading-edge research, the use of the up-to-date examples and statistics to illustrate global trends and enterprise strategy, and the discussion of current events within the context of the appropriate theory. Building on these strengths, the goals for the 12th edition have focused on the following: 1. Incorporate new insights from scholarly research. 2. Make sure the content covers all appropriate issues. 3. Make sure the text is up-to-date with current events, statistics, and examples. 4. Add new and insightful opening and closing cases in most chapters. 5. Incorporate value-added global EDGETM features in every chapter. 6.

Connect every chapter to a focus on managerial implications.

Course: Principles of Management is the introductory course taken by most undergraduate business majors. Almost every text/course is organized around the four functions of management: planning, leading, organizing, and controlling (PLOC). What makes the texts different are their approach to the subject (principles vs. OB focused) and their strengths of coverage (high/strategic vs. low level/applied/skills). The aim of this text is to show how the four functions interact.

This blistering novel—from the bestselling, Pulitzer Prize-winning author of *The Road*—returns to the Texas-Mexico border, setting of the famed Border Trilogy. The time is our own, when rustlers have given way to drug-runners and small towns have become free-fire zones. One day, a good old boy named Llewellyn Moss finds a pickup truck surrounded by a bodyguard of dead men. A load of heroin and two million dollars in cash are still in the back. When Moss takes the money, he sets off a chain reaction of catastrophic violence that not even the law—in the person of aging, disillusioned Sheriff Bell—can contain. As Moss tries to evade his pursuers—in particular a mysterious mastermind who flips coins for human lives—McCarthy simultaneously strips down the American crime novel and broadens its concerns to encompass themes as ancient as the Bible and as bloodily contemporary as this morning's headlines. *No Country for Old Men* is a triumph.

The First Chapters uncovers the origins of the first paragraph or chapter divisions in copies of the Christian Scriptures. Its focal point is the magnificent, fourth-century Codex Vaticanus (Vat.gr. 1209; B 03), perhaps the single most significant ancient manuscript of the Bible, and the oldest material witness to what may be the earliest set of numbered chapter divisions of the Bible. The First Chapters tells the history of textual division, starting from when copies of Greek literary works used virtually no spaces, marks, or other graphic techniques to assist the reader. It explores the origins of other numbering systems, like the better-known Eusebian Canons, but its theme is the first set of numbered chapters in Codex Vaticanus, what nineteenth-century textual critic Samuel P. Tregelles labelled the *Capitulatio Vaticana*. It demonstrates that these numbers were not, as most have

claimed, late additions to the codex but belonged integrally to its original production. The First Chapters then breaks new ground by showing that the *Capitulatio Vaticana* has real precursors in some much earlier manuscripts. It thus casts light on a long, continuous tradition of scribally-placed, visual guides to the reading and interpreting of Scriptural books. Finally, The First Chapters exposes abundant new evidence that this early system for marking the sense-divisions of Scripture has played a much greater role in the history of exegesis than has previously been imaginable.
