The book also devotes considerable attention to national laws operating in the shadow of the WTO system (such as antidumping and countervailing duty laws), and to interesting new developments associated with free trade agreements such as the USMCA. After introductory chapters on international economics, international law, and US constitutional and institutional issues relating to international trade regulation, the book explores the WTO's structure and takes a detailed look at its dispute settlement system. The heart of the book then treats the basic GATT rules on (i) trade liberalization (tariffs and quotas), (ii) non-discrimination (MFN and national treatment and the exceptions for FTAs, health and conservation), (iii) standards and (iv) trade remedies (safeguards, dumping and subsidies). Additional chapters cover trade in services, intellectual property issues and

several other trade-related issues. The new 7th edition offers a basic understanding of the international economic system, the impact of international economic interdependence and the struggle of legal institutions to cope with this and other aspects of globalization.

International Trade and Business Law Review Cambridge University Press

This book is a detailed treatment of the Russian legal system written especially for English-speaking law students

and lawyers. While it is designed primarily as a casebook, extended discussions of the law, numerous citations to original Russian sources, and detailed suggestions for finding these sources on the Internet also make it useful as a reference for scholars specializing in Russian studies and for lawyers who know Russian but not Russian law. The authors have decades of experience following the Russian legal system, with one concentrating on human rights, court procedure, and criminal law and procedure, the other on civil, commercial, and tax law. Chapters cover key aspects of the Russian legal system, including sources of law, the judicial system, the legal profession, constitutional law, individual rights, civil and commercial law, civil procedure, private international law, foreign investment law, criminal procedure, administrative law, and tax law. The book covers major changes in Russian law since the previous edition was published, including more reliance on judicial precedent, increasing the independence of criminal investigators from prosecutors, dealing with abuse of the legal system by corrupt officials to steal businesses from their rightful owners, and closing loopholes in the tax system. The new edition also chronicles the continuing struggle of the European Court of Human Rights and activist Russian lawyers to push Russian law toward international standards.

Civil Jurisdiction and Judgments Routledge

*French Business Law in Translation* sets forth a unique collection of translations of those French laws relevant in an international business context. It presents a bilingual version of the French laws and regulations that the authors have condensed from tens of thousands of pages down to the "essence" of the law in each of the fifteen subject areas. They refer to rules and regulations in French law of recurrent importance to business professionals and legal practitioners involved in international business. By adding the relevant French text in a column directly across from the translation into English, this 2nd edition has a whole new dimension which makes it an invaluable resource in legal linguistics for international practitioners and academics. The selection of texts has been made by members of the Paris office of Paul, Hastings, Janofsky & Walker (Europe) LLP, under the direction of Pierre Kirch. A team of advanced French and American law students at Columbia University Law School, supervised by Professor Bermann, has prepared the basic translations. The definitive translations and chapter introductions

were prepared by the authors. Through a sound translation of the legislation which recurrently applies to ordinary and usual business situations, it is possible to discern the philosophy underlying the French system, reflective of how France conceives and regulates business phenomena that are in themselves essentially universal. Significant excerpts of fast-evolving areas of the law have been translated because in a French setting, transactional work involves not only fundamental contractual concepts set out in the Civil Code, but also securities law, intellectual property, competition, tax and labor law considerations. Each chapter opens with a brief introduction to the subject and an outline of its contents. The purpose is to allow the reader to place the translated legislation and rules in their overall context. The selection of translated material is done in such a way as to enable the reader to appreciate in their full scope the fundamentals of each area of the law, as conceived by the legislator, the French Government and, in certain cases, independent regulatory authorities. A glossary added to each chapter is intended to give a preliminary idea of the conceptual linguistic tools used in each of the subject-area chapters. Legal translation is not an exact science, but based on the authors' combined experience of more than 50 years in dealing with the fascinating differences between French law and U.S. law, they are keenly aware of the fact that the translation of legal language is not made by the translation of words, but rather by an attempt to use words to achieve an (often rough) equivalence of concepts. By putting the French original across from the translation, and by investing themselves in the qualitative value of seeking not words but conceptual equivalents or explanations for the rules of French law, they hope to have fostered a deeper understanding of the laws and regulations governing business in France. This should not only better inform those lawyers involved internationally but also be instructive to French lawyers interested in the recurrent linguistic characteristics of French legal texts. This can only be shown when the French original is compared with the appropriate conceptual link to American legal English.
