[Specifications of a International DT 466 Engine | It Still ...](#)

actually, the DT466 his a higher RPM engine. The two trucks I spoke of at our company run 2450 RPM at 65 MPH, has not seemed to hurt either one of them, the one is aproching 750,000 miles with out major work. I think that is where international designed them to get the most MPG's. My Mack runs 2500 RPM at 65 and close to 2650 at 75.. Redline is ...

International tended to use proprietary diesel engines. In the 1970s, IHC built the DVT 573 V-8 diesel of 240 and 260 hp (179 and 194 kW) but these were not highly regarded and relatively few were sold. Their DT 466 engine started in 1974 and was very successful.

...  
Boy- IMO to compare those three  
engines is like comparing  
apples to apples. Each of them  
has their advantages. The DT  
360 is one tough running  
engine, as is the DT 466. The  
advantages to those are that  
they are both wetsleeve  
engines. The DT 466 has been  
around for 30+ years, so it's  
well proven.
