International Financial Management Irwin Professional Pub

Multinational Financial Management Wiley

International Financial Management provides students with a foundation for analysis through a text that is well-organized, comprehensive, and provides up-to-date coverage of the topics. Like the first eight editions, it is written based on two tenets: emphasis on the basics and emphasis on a managerial perspective. The scope and content of international finance have been fast evolving due to cycles of deregulations and regulations of financial markets, product innovations, and technological advancements. As capital markets of the world are becoming more integrated, a solid understanding of international finance has become essential for astute corporate decision making. Reflecting the growing importance of international finance as a discipline, we have seen a sharp increase in the demand for experts in the area in both the corporate and academic worlds. International Financial Management discussion is written so that a self-contained treatment of each subject is presented in a user-friendly fashion. The text is intended for use at both the advanced undergraduate and MBA levels.

International Business Law and Its Environment Cambridge University Press

One of the few books that addresses financial and managerial accounting within the three major areas of the public sector--government, health, and not-for-profit--the Second Edition provides the fundamentals of financial management for those pursuing careers within these fields. KEY TOPICS: " With a unique presentation that explains the rules specific to the public sector, this book outlines the framework for readers to access and apply financial information more effectively. Employing an engaging and user-friendly approach, this book clearly defines essential vocabulary, concepts, methods, and basic tools of financial management and financial analysis that are imperative to achieving success in the field. This book is intended for financial managers and general managers who are required to obtain, understand, and use accounting information to improve the financial results of their organizations, specifically within the areas of government or public policy and management, not-for-profit management, and health policy and management.

International Finance McGraw-Hill Education
