Learn about Pawleys Island -- its beginnings and its legends -- Georgetown and the Georgetown Mill; Murrells Inlet; Oliver's; the ubiquitous head boat and Mickey Spillane; Brookgreen Gardens; and O.D. and the Carolina Shag. See all these through the eyes of the Bitter family as they made it their vacation home for years. Meet the indomitable matriarch, Dammo, whose mineral rights to several Kentucky mines suddenly spat out a royalty check for \$30,000 for the first time in thirty years. With lots of cash and lots of family, the

idea of a multi-generational get-together appealed. Watch family members create entertaining schtick: the invention of the Pawley Dog, Bloody Marys on the porch, burying teens up to their neck in sand, impersonating popular actors, sculpting award-worthy sand castles, foraging at an age-damaged mom and pop grocery, keeping mind-boggling "bed-days" charts, and sailing the Hobie Cat into questionable situations. Share the bittersweet ending of our sojourn the summer before historic Hurricane Hugo wrecked and changed the island. But dwell not on one sad event, because we did it all and then some.

This book introduces the integrated management concept of "Sustainable Value Creation", which delivers sustainability 'inside-out' from the core business. It is based on the premise that sustainability can provide a platform for growth, if it is implemented in a company's products, services and supply chains (combined also known as the 'Value Chain'). Managing the Value Chain from the outset with a sustainability mindset subsequently allows

profitable economical, ecological and societal growth. It combines the need for increased sustainability and its implementation in the operations of a company. The book addresses the following issues: How do economic, environmental and societal factors impact the value-creation process of a company? What requirements and expectations need to be met to balance economic, ecologic and societal value creation? What are the building blocks and measures that can be utilized on the journey towards building a sustainable value chain? What benefits can be achieved through sustainable value chains? What are the practical examples of sustainable

value chains in leading companies that can inspire others to follow? The book includes contributions from the following organisations and companies: Beiersdorf, SAP, Klenk und Hoursch, VAUDE, Infineon Technologies, Independent Capital Management, BASF, Nanogate, the Federal German Council for Sustainable Development, Henkel, Symrise, shared.value.chain, Siemens, Fairphone and Thin Air Factory

Beyond the Great Wave
An acknowledged master during his lifetime, Hokusai created sublime works during the last thirty years of his life, right up to his death at the age of ninety. Exhibitions since the 1980s have presented his long career as a chronological sequence. This

publication, which will coincide with an exhibition at the British Museum, takes a fresh approach based on innovative scholarship: thematic groupings of late works are related to the major spiritual and artistic quests of Hokusai's life. Hokusai's personal beliefs are contemplated here through analyses of major brush paintings, drawings, woodblock prints, and illustrated books. The publication gives due attention to the contribution of Hokusai's daughter Eijo (Oi), also an accomplished artist. Hokusai continually explored the mutability and minutiae of natural phenomena in his art. His late subjects and styles were based on a mastery of eclectic Japanese, Chinese, and European techniques and an encyclopedic knowledge of nature, myth, and history. *Hokusai: Beyond the Great Wave* draws on the finest collections of his work in Japan and around the world, making this the most important publication for years on Hokusai and a uniquely valuable overview of the artist's late career.
