Communication Skills in Pharmacy Practice McGraw-Hill Education (UK)

The Handbook of Communication Skills is recognised as one of the core texts in the field of communication, offering a state-of-the-art overview of this rapidly evolving field of study. This comprehensively revised and updated fourth edition arrives at a time when the realm of interpersonal communication has attracted immense attention. Recent research showing the potency of communication skills for success in many walks of life has stimulated considerable interest in this area, both from academic researchers, and from practitioners whose day-to-day work is so dependent on effective social skills. Covering topics such as non-verbal behaviour, listening, negotiation and persuasion, the book situates communication in a range of different contexts, from interacting in groups to the counselling interview. Based on the core tenet that interpersonal communication can be conceptualised as a form of skilled activity, and including new chapters on cognitive behavioural therapy and coaching and mentoring, this new edition also places communication in context with advances in digital technology. The Handbook of Communication Skills represents the most significant single contribution to the literature in this domain. Providing a rich mine of information for the neophyte and practising professional, it is perfect for use in a variety of contexts, from theoretical mainstream communication modules on degree programmes to vocational courses in health, business and education. With contributions from an internationally renowned range of scholars, this is the definitive text for students, researchers and professionals alike.

Family Communication carefully examines state-of-the-art research and theories of family communication and family relationships. In addition to presenting cutting-edge research, it focuses on classic theories and research findings that have influenced and revolutionized the way scholars conceptualize family interaction. This text offers a thorough and up-to-date presentation of scientific research in family communication for both teachers and students of family communication as well as professionals who work with families. This second edition features: Chapters updated with the latest research, including over 2000 references. Material on understudied family relationships, such as extended family relationships and gay and lesbian relationships Recent research on understudied topics in family communication, including the influence of technology on mate selection, negotiating work and family stress, single parenting, cohabitation, elder abuse, forgiveness in marriage, and the links among communication, culture, and mental health. A revised chapter on parent-child communication, taking a lifespan perspective that helps organize the large body of research in this area. A new chapter devoted to extended family relationships, with special focus on grandparent-grandchild relationships, in-law relationships, and adult children and their parents. An expanded review of family conflict processes, especially in relation to decision making and power. A companion website provides chapter outlines, exam questions, and PowerPoint slides for students and instructors.

Undergraduate readers should find the information easy to understand, while advanced readers, such as graduate students and professionals, will find it a useful reference to classic and contemporary research on family communication and relationships.

What are the main influences on the formation of self-identity? What role do language and non-verbal communication play in the construction and display of identity? How does consumer culture impact on displays of self-identity? The rapid growth of cultural diversity within Western societies not only presents new possibilities and dilemmas for the construction of self and social-identity, but also highlights the need for individuals to be aware of the factors which impact upon co-cultural and intercultural communication. Many of the messages carried in everyday social interaction can be seen to carry the raw materials out of which identities are explored, displayed and constructed. This introductory text explores the socio-cultural surround in which interpersonal communication takes place, and considers the interface between interpersonal and mass communication. Case studies, models, questions for discussion and examples linking theory and practice allow you to explore ideas about the formation and display of identity in everyday encounters. Topics include: Exploration of the concept of identity Identities in groups Social identities: ethnic, class, gender and sexuality Consumer identities Marginalised or 'outsider' identities Models of communication Intercultural communication Key Themes in Interpersonal Communication is a must-read for all students on Communication studies, Cultural studies and Sociology courses.
