This book uses theories of memory derived from cognitive science to offer new ways of understanding how literary works remember other literary works. Using terms derived from psychology - implicit and explicit memory, interference and forgetting - Raphael Lyne

shows how works by Renaissance writers such as Wyatt, Shakespeare, Jonson, and Milton interact with their sources. The poems and plays in question are themselves sources of insight into the workings of memory, sharing and anticipating some scientific categories in the process of their thinking. Lyne proposes a way forward for cognitive approaches to literature, in which both experiments and texts are valued as contributors to interdisciplinary questions. His book will interest researchers and upper-level students of renaissance literature and drama, Shakespeare studies, memory studies, and classical reception.

To See the Wizard Oxford University Press
Kurt Vonnegut 's masterpiece, *Slaughterhouse-Five* is " a desperate, painfully honest attempt to confront the monstrous crimes of the twentieth century " (Time). Selected by the Modern Library as

one of the 100 best novels of all time *Slaughterhouse-Five*, an American classic, is one of the world's great antiwar books. Centering on the infamous World War II firebombing of Dresden, the novel is the result of what Kurt Vonnegut described as a twenty-three-year struggle to write a book about what he had witnessed as an American prisoner of war. It combines historical fiction, science fiction, autobiography, and satire in an account of the life of Billy Pilgrim, a barber's son turned draftee turned optometrist turned alien abductee. As Vonnegut had, Billy experiences the destruction of Dresden as a POW. Unlike Vonnegut, he experiences time travel, or coming "unstuck in time." An instant bestseller, *Slaughterhouse-Five* made Kurt Vonnegut a cult hero in American literature, a reputation that only strengthened over time, despite his being banned and censored by some libraries and schools for content and language. But it was precisely those elements of Vonnegut's writing—the political edginess, the genre-bending inventiveness, the frank violence, the transgressive wit—that have inspired generations of readers not just to look differently at the world around them but to find the confidence to say something about it. Authors as wide-ranging as Norman Mailer, John Irving, Michael Crichton, Tim O'Brien, Margaret Atwood, Elizabeth Strout, David Sedaris, Jennifer Egan, and J. K. Rowling have all found inspiration in Vonnegut's words. Jonathan Safran Foer has described Vonnegut as "the kind of writer who made people—young people especially—want to write." George Saunders has declared Vonnegut to be "the great, urgent, passionate American writer of our century, who offers us . . . a model of the kind of compassionate thinking that might yet save

us from ourselves." More than fifty years after its initial publication at the height of the Vietnam War, Vonnegut's portrayal of political disillusionment, PTSD, and postwar anxiety feels as relevant, darkly humorous, and profoundly affecting as ever, an enduring beacon through our own era's uncertainties.

Providing a model of how to 'do' biblical theology, this book also explores important emerging trends over the last five years including: reception-history as a means to grasping the theology of the bible; theological interpretation as a new form of *lectio divina* (meditative reading); the place of Jewish interpretation in forming a biblical theology; and the ever-present problem of losing Old Testament theology in New Testament theology. The second half of the book discusses the theme of Providence, as found in both Testaments, with insights gained from the history of biblical interpretation and from major attempts at working out a theology of Providence. Elliott focuses on Providence as it has been perceived rather than the themes of God's goodness and powerfulness in themselves.

Approaching the writings of Mary Wroth through a fresh 21st-century lens, this volume accounts for and re-invents the literary scholarship of one of the first "canonized" women writers of the English Renaissance. Essays present different practices that emerge around "reading" Wroth, including editing, curating, and digital reproduction.

More than any rock artist since The Beatles, Radiohead's music inhabits the sweet spot between two extremes: on the one hand, music

that is wholly conventional and conforms to all expectations of established rock styles, and, on the other hand, music so radically experimental that it thwarts any learned notions. While averting mainstream trends but still achieving a significant level of success in both US and UK charts, Radiohead's music includes many surprises and subverted expectations, yet remains accessible within a framework of music traditions. In *Everything in its Right Place: Analyzing Radiohead*, Brad Osborn reveals the functioning of this reconciliation of extremes in various aspects of Radiohead's music, analyzing the unexpected shifts in song structure, the deformation of standard 4/4 backbeats, the digital manipulation of familiar rock 'n' roll instrumentation, and the expected resolutions of traditional cadence structures. Expanding on recent work in musical perception, focusing particularly on form, rhythm and meter, timbre, and harmony, *Everything in its Right Place* treats Radiohead's recordings as rich sonic ecosystems in which a listener participates in an individual search for meaning, bringing along expectations learned from popular music, classical music, or even Radiohead's own compositional idiolect. Radiohead's violations of these subjective expectation-realization chains prompt the listener to search more deeply for meaning within corresponding lyrics, biographical details of the band, or intertextual relationships with music, literature, or film. Synthesizing insights from a range of new methodologies in the theory of pop and rock, and specifically designed for integration into music theory courses for upper level undergraduates, *Everything in its Right Place* is sure to find wide readership among scholars and students, as well as avid listeners who seek a deeper understanding of Radiohead's distinctive juxtapositional style.

This major project offers an unprecedented scholarly analysis of the contribution made by the most important Shakespearean critics, editors, actors and directors as well as novelists, poets, composers, and thinkers from the seventeenth to the twentieth century. An essential resource for students and scholars in Shakespeare studies.

100 Cult Films Wipf and Stock Publishers Staging Chinese Revolution surveys fifty years of theatrical propaganda performances in China, revealing a dynamic, commercial capacity in works often dismissed as artifacts of censorship. Spanning the 1960s through the 2010s, Xiaomei Chen reads films, plays, operas, and television shows from an interdisciplinary and comparative perspective, demonstrating how, in a socialist state with "capitalist characteristics," propaganda performance turns biographies, memoirs, and war stories into mainstream ideological commodities, legitimizing the state and its right to rule. Analyzing propaganda performance also brings contradictions and inconsistencies to light that throw common understandings about propaganda's purpose into question. Chen focuses on revisionist histories that stage the lives of the "founding fathers" of the Communist Party, such as Chen Duxiu, Mao Zedong, and Deng Xiaoping, and the engaging mix of elite and ordinary

characters that animate official propaganda in the private and public sphere. Taking the form of "personal" memories and representing star and youth culture and cyberspace, contemporary Chinese propaganda appeals through multiple perspectives, complicating relations among self, subject, agent, state building, and national identity. Chen treats Chinese performance as an extended form of political theater confronting critical issues of commemoration, nostalgia, state rituals, and contested history. It is through these reenactments that three generations of revolutionary leaders loom in extraordinary ways over Chinese politics and culture.

Although the Hebrew Bible as a whole is centered on God and God's relations with Israel, the character of God appears in most biblical stories only indirectly. How are modern readers to make sense of this paradox? God as an Absent Character in Biblical Hebrew Narrative establishes a set of literary methods that both academic and non-academic readers can use to understand the character of God, who is the single most important character in Hebrew Bible narrative and, strangely, absent from the majority of it.

Metaphysics and Hermeneutics in the Medieval Platonic Tradition consists of twelve essays originally published between 2006 and 2015, dealing with main trends and specific figures within the medieval Platonic tradition. Three essays provide general surveys of the transmission of late ancient thought to the Middle Ages with emphasis on the ancient authors, the themes, and their medieval readers, respectively. The remaining essays deal especially with certain major figures in the Platonic tradition, including pseudo-Dionysius the Areopagite, Iohannes Scottus Eriugena, and Nicholas of Cusa. The principal conceptual aim of the collection is to establish the primacy of hermeneutics within the philosophical program developed by these authors: in other words, to argue that their philosophical activity, substantially albeit not exclusively, consists of the reading and evaluation of authoritative texts. The essays also argue that the role of hermeneutics varies in the course of the tradition between being a means towards the development of metaphysical theory and being an integral component of metaphysics itself. In addition, such changes in the status and application of hermeneutics to metaphysics are shown to be accompanied by a shift from emphasizing the connection between logic and philosophy to emphasizing that between rhetoric and philosophy. The collection of essays fills in a lacuna in the history of philosophy in general between the fifth and the fifteenth centuries. It also initiates a dialogue between the metaphysical hermeneutics of

medieval Platonism and certain modern theories of hermeneutics, structuralism, and deconstruction. The book will be of special interest to students of the classical tradition in western thought, and more generally to students of medieval philosophy, theology, history, and literature.

Heitor Villa-Lobos' s *Bachianas Brasileiras* demonstrates how the composer achieved his own Brazilian neoclassical style in a group of works, nine suites in total, that is arguably one of the best examples of homage to J.S. Bach' s music in the twentieth century. In this book, the corpus of *Bachianas Brasileiras* is contextualized and critically examined according to its structure and intertextual aspects, as well as its relationship to Bach' s music, Brazilian popular music, and other works by contemporaries of Villa Lobos. A range of musical examples illustrate instances of the selected topics in the works, encompassing urban Brazilian popular music such as the choro, Brazilian northeast and afro rhythms, and citation of folkloric melodies. Dudeque' s comprehensive examination of the *Bachianas Brasileiras* will be invaluable for scholars and researchers of music theory and analysis.

This volume meditates on the various meanings of legitimation and expands

on the notion that language can be used to gain or preserve it by demonstrating the added impact of other modes in specific examples of political and institutional discourse. The book draws on a multilayered framework that builds on and integrates work from both critical discourse analysis and social semiotic traditions, as well as the work of philosophers such as Habermas, Weber, and Rousseau, to show how it might be applied in practice to analyse and understand myriad forms of discourse. The volume focuses on examples from political campaign spots, which highlight various modes, including images, film, oratory, and color, but are also of global relevance and scale, highlighting their unique and complex position at the nexus between legitimation and multimodality. Offering a new analytical framework for understanding legitimation across a range of discursive contexts, this book will be of particular interest to students and scholars in discourse analysis, multimodality, political science, psychology, design, and education.

This book invites readers into Tolkien's world through the lens of a variety of philosophers, all of whom owe a rich debt to the Neoplatonic philosophical tradition. It places Tolkien's mythology against a wider backdrop of Catholic philosophy and asks serious questions about the nature of creation, the nature of God, what it means to be good, and the problem of evil. Halsall sets Tolkien alongside both his contemporaries

and ancient authors, revealing his careful use of literary devices inspired by them to craft his own "mythology for England."

Some films should never have been made. They are too unsettling, too dangerous, too challenging, too outrageous and even too badly made to be let loose on unsuspecting audiences. Yet these films, from the shocking Cannibal Holocaust to the apocalyptic Donnie Darko, from the destructive Tetsuo to the awfully bad The Room, from the hilarious This Is Spinal Tap to the campy Showgirls, from the asylum of Das Cabinet des Dr. Caligari to the circus of Freaks, from the gangs of The Warriors to the gangsters of In Bruges and from the flamboyant Rocky Horror Picture Show to the ultimate cool of The Big Lebowski, have all garnered passionate fan followings. Cult cinema has made tragic misfits, monsters and cyborgs, such as Edward Scissorhands or Blade Runner's replicants, heroes of our times. 100 Cult Films explains why these figures continue to inspire fans around the globe. Cult film experts Ernest Mathijs and Xavier Mendik round up the most cultish of giallo, blaxploitation, anime, sexploitation, zombie, vampire and werewolf films, exploring both the cults that live hidden inside the underground (Nekromantik, Caf é Flesh) and the cult side of the mainstream (Dirty Dancing, The Lord of the Rings, and even The Sound of Music). 100 Cult Films is a true trip around the world, providing a lively and illuminating guide to films from more than a dozen countries, across nine decades,

representing a wide range of genres and key cult directors such as David Cronenberg, Terry Gilliam and David Lynch. Drawing on exclusive interviews with some of the world's most iconic cult creators and performers, including Dario Argento, Pupi Avati, Alex Cox, Ruggero Deodato, Jesús Franco, Lloyd Kaufman, Harry Kümel, H. G. Lewis, Christina Lindberg, Takashi Miike, Franco Nero, George A. Romero and Brian Yuzna, and featuring a foreword by cult director Joe Dante, *100 Cult Films* is your ultimate ticket to the midnight movie show.

The Second Temple period is an era that marked a virtual explosion in the world of literature, with the creation, redaction, interpretation, and transmission of Jewish texts that represented diverse languages and ideologies. The creation of many of these writings coincided with the growth of the Jewish community beyond the borders of Israel; therefore, among those for whom the Temple played a diminishing role. The transition period from Temple to texts was accompanied by conflicting interpretations about the role of the

Temple as well as diverse theological understandings about God and the Jewish people. Drawing on the expertise of leading specialists in Second Temple Judaism, *Temple, Texts, and Traditions* explores the rich traditions of the Jewish people as they were expressed and interpreted in their writings in that period, which included writings that later became recognized as Scriptures.

Explores the influence of Bertolt Brecht's ideas on the practice and study of cinema. In *Brechtian Cinemas*, Nenad Jovanovic uses examples from select major filmmakers to delineate the variety of ways in which Bertolt Brecht's concept of epic/dialectic theatre has been adopted and deployed in international cinema. Jovanovic critically engages Brecht's ideas and their most influential interpretations in film studies, from apparatus theory in the 1970s to the presently dominant cognitivist approach. He then examines a broad body of films, including Brecht's own *Mysteries of a Hairdressing Salon* (1923) and *Kuhle Wampe* (1932), Jean-Marie Straub and Danièle Huillet's *History Lessons* (1972), Peter Watkins's *La Commune* (2000), and Lars von Trier's *Nymphomaniac* (2013). Jovanovic argues that the role of

montage—a principal source of artistic estrangement (*Verfremdung*) in earlier Brechtian films—has diminished as a result of the technique's conventionalization by today's Hollywood and related industries. Operating as primary agents of *Verfremdung* in contemporary films inspired by Brecht's view of the world and the arts, Jovanovic claims, are conventions borrowed from the main medium of his expression, theatre. Drawing upon a vast number of sources and disciplines that include cultural, film, literature, and theatre studies, *Brechtian Cinemas* demonstrates a continued and broad relevance of Brecht for the practice and understanding of cinema. Nenad Jovanovic is Assistant Professor of Media Studies at Wright State University.
