Have you ever faced stress or anxiety before an important interview? Facing a potential employer and knowing that your dream job is just around the corner can be a nerve-wracking experience for most of us. Being at a job interview can quickly feel like navigating through a minefield without proper preparedness. Have you ever suspected that any unconscious habits of yours might be working against you when talking with a hiring manager? More often than not, job seekers have negative habits that never fail to crop up at the worst moments

during an interview. These bad behaviors and habits can be tricky to spot and discard without someone pinpointing them. Here's some of what you can expect to learn inside the pages of this book: Learn exactly which steps to follow in order to be well prepared before you arrive to the interview. The key things that employers look for in candidates when conducting an interview. The best way to eliminate stress and anxiety and be in complete control during the process. Using social media to your advantage instead of having it work against you before meeting the hiring manager. Learn how to answer many of the most commonly asked regular and "trick" questions. Learning what not to say or do is just as crucial as giving the right answers. Job seekers will usually diminish their chances of getting an offer by saying the wrong things during the interview process without them even being aware of it. Sucking up or being too flattering to your employer can be as bad as acting too aloof or uninterested. Get ready to ace your next interview and get an offer by taking action today. From the AuthorGlad to present the latest edition of this BA interview questions and answers book, which is much bigger than the previous edition and has more questions with improved answers and illustrations (wherever needed). This book is written to enable business analysts to succeed in the job interviews. This book covers general, business analysis core skills and situational interview questions with suggested answers.In my professional career, I have interviewed 100s of IT professionals at different levels. I came across several professionals, who could not answer questions as effectively as I would have liked. Even though, I can make

out that they knew the answers but could not structure them well. I wanted to create a self-help book which would enable business analysts doing well in the interviews and getting their dream jobs. This book has four sections as describes below. Section I deals with general questions. These questions give the interviewer(s) the first impression about your confidence, composure, and basic communication skills. This section includes General questions about you and your profile as well as General BA questions about the role and the projects. Section II - Business Analysis core skills has questions relating to Requirements elicitation, techniques, UML modelling, Requirements specifications documentation (Business Analysis core skills). It covers various aspects of requirements, Use cases, process diagrams, SRS and its elements, prioritization, elicitation, verification, and validation etc. It is also the longest section of the book. Section III deals with Agile, SCRUM and user stories. There are advance questions relating to personas and application usability as well. Section IV includes some additional questions on Business analysis. Section V deals with the situation / scenario-based questions. These questions are asked in the BA interviews regularly. I have tried to cover 20+ situations questions to provide a wide coverage. Each of the answers have been provided with the context and suggested answers. Contributors I must thank my colleagues Rashmi Srivastava and Neha for the sincere and diligent contributions to help me with inputs and feedbacks. Abhishek Srivastava
