The Knowledge Gap Penguin
This booklet answers common questions about special education and students with disabilities. It was developed in light of the movement toward inclusion, through which more students with disabilities (and students with more serious disabilities) are being assigned to general education classes. The 28 questions and answers are grouped into five chapters that address: (1) prereferral/identification; (2) legal issues; (3) delivery models; (4) classroom accommodations and adaptations; and (5) persons, places, and resources. Each question and answer also identifies one or more suggested resources. Questions consider topics such as: the process of identifying a student

who may have a disability, the types of disability, the incidence of disabilities, causes of disabilities, major federal laws protecting students with disabilities, the meaning of "least restrictive environment," advantages of cooperative teaching, curriculum modifications, classroom accommodations, grading students with disabilities, communicating with parents, relevant organizations and agencies, and 22 relevant journals and books. For “ A School for All ” to be a reality, changes need to be made to the education system regarding culture, policies, and practices within schools. Inclusive education requires more than just a standard educational provision. Teaching and education have been extensively researched during the COVID-19 pandemic, and yet there is little research that has addressed the practices that can improve phygital teaching effectiveness in inclusive environments. Following the move to online teaching programs in the pandemic, children with special needs faced even greater challenges, including digital exclusion and

the threat of being left behind, as well as the inability of teachers to teach them appropriately due to an absence of appropriate assistive equipment, internet access, accessible materials, and poor preparation. Inclusive Phygital Learning Approaches and Strategies for Students With Special Needs provides current, relevant information concerning inclusive classroom teaching approaches during COVID-19, which are still implemented post COVID-19. Covering topics such as inclusive classroom teaching, phygital teaching, and the digital divide, this book is essential for pre-service and in-service teachers, inclusive educational leaders, academics, curriculum development specialists, and those who are interested in inclusive phygital practices for students in special education.

The Many Faces of Special Educators Routledge

The definitive career guide for grad students, adjuncts, post-docs and anyone else eager to get tenure or turn their Ph.D. into their ideal job Each year tens of thousands of students will, after years of hard work and enormous amounts of money, earn their Ph.D. And each year only a small percentage of them will land a job that justifies and rewards their investment. For every comfortably tenured professor or well-paid former academic, there are countless underpaid and overworked adjuncts, and many more who simply give up in frustration.

Those who do make it share an important asset that separates them from the pack: they have a plan. They understand exactly what they need to do to set themselves up for success. They know what really moves the needle in academic job searches, how to avoid the all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic options. Karen Kelsky has made it her mission to help readers join the select few who get the most out of their Ph.D. As a former tenured professor and department head who oversaw numerous academic job searches, she knows from

experience exactly what gets an academic applicant a job. And as the creator of the popular and widely respected advice site The Professor is In, she has helped countless Ph.D.'s turn themselves into stronger applicants and land their dream careers. Now, for the first time ever, Karen has poured all her best advice into a single handy guide that addresses the most important issues facing any Ph.D., including: -When, where, and what to publish -Writing a foolproof grant application -Cultivating references and crafting the perfect CV -Acing the job talk and campus interview -Avoiding the adjunct trap -Making the leap to nonacademic work, when the time is right The Professor Is In addresses all of these issues, and many more.
