Since the qualitative interview resembles a good conversation, what makes somebody a good discussion partner? It's that the person listens attentively, thinks along, empathizes with what has just been said, and does not interrupt. In short, it's someone who is empathetic and interested. Is such a person a good interviewer by nature? No, as these characteristics form only the basis for a part of the "Art" referred to in the title of this book. However, the interviewer also needs additional knowledge and skills that are discussed extensively in this book. An interview should first of all have a well defined information goal. And, only when the skills of the good discussion partner merge with the researcher's knowledge, do we observe the art of the interview. This book will benefit those who are professionally involved in doing qualitative interviews or who are learning how to conduct these interviews. Contents include: A Short Introduction to Qualitative Research * The Qualitative Interview: Features, Types, and Preparation * Designing Individual Interviews * Conducting an Individual Interview * Designing a Focus Group * Conducting a Focus Group * Processing Qualitative Interviews

The novel is alive and well, thank you very much For the last fifteen years, whenever a novel was published, John Freeman was there to greet it. As a critic for more than two hundred newspapers worldwide, the onetime president of the National Book Critics Circle, and the former editor of Granta, he has reviewed thousands of books and interviewed scores of writers. In *How to Read a Novelist*, which pulls together his very best profiles (many of them new or completely rewritten for this volume) of the very best novelists of our time, he shares with us what he's learned. From such international stars as Doris Lessing, Haruki Murakami, Salman Rushdie, and Mo Yan, to established American lions such as Don DeLillo, Norman Mailer, Toni Morrison, Marilynne Robinson, Philip Roth, John Updike, and David Foster Wallace, to the new guard of Edwidge Danticat, Dave Eggers, Jonathan Franzen, and more, Freeman has talked to everyone. What emerges is an instructive and illuminating, definitive yet still idiosyncratic guide to a diverse and lively literary culture: a vision of the novel as a varied yet vital contemporary form, a portrait of the novelist as a unique and profound figure in our fragmenting global culture, and a book that will be essential reading for every aspiring writer and engaged reader—a perfect companion (or gift!) for anyone who's ever curled up with a novel and wanted to know a bit more about the person who made it possible.

The book describes in-depth qualitative interviewing from the very beginning to last step, from its underlying philosophy and assumptions to project design, analysis and write up. In responsive interviewing, the stages of research-design, data gathering, and analysis-are intimately linked. Researchers perform analysis throughout their projects, not just at the end, so that as they learn more, they can modify both the research problem they are exploring and the questions they ask. The book assumes no prior knowledge or experience, and the authors' tone is conversational, revealing that interviewers can make mistakes, recover from them and still obtain rich and meaningful information.

The state of emergency, according to thinkers such as Carl Schmidt, Walter Benjamin, and Giorgio Agamben, is at the heart of any theory of politics. But today the problem is not the crises that we do confront, which are often used by governments to legitimize themselves, but the ones that political realism stops us from recognizing as emergencies, from widespread surveillance to climate change to the systemic shocks of neoliberalism. We need a way of disrupting the existing order that can energize radical democratic action rather than reinforcing the status quo. In this provocative book, Santiago Zabala declares that in an age where the greatest emergency is the absence of emergency, only contemporary art's capacity to alter reality can save us. Why Only Art Can Save Us advances a new aesthetics centered on the nature of the emergency that characterizes the twenty-first century. Zabala draws on Martin Heidegger's distinction between works of art that rescue us from emergency and those that are rescuers into emergency. The former are a means of cultural politics, conservers of the status quo that conceal emergencies; the latter are disruptive events that thrust us into emergencies. Building on Arthur Danto, Jacques Rancière, and Gianni Vattimo, who made aesthetics more responsive to contemporary art, Zabala argues that works of art are not simply a means of elevating consumerism or contemplating beauty but are points of departure to change the world. Radical artists create works that disclose and demand active intervention in ongoing crises. Interpreting works of art that aim to propel us into absent emergencies, Zabala shows how art's ability to create new realities is fundamental to the politics of radical democracy in the state of emergency that is the present.

In 2012 a book will be published: "The Artist Interview". For conservation and presentation of contemporary art. Guidelines and practice. Donald Judd Interviews presents sixty interviews with the artist over the course of four decades, and is the first compilation of its kind. It is the companion volume to the critically acclaimed and bestselling Donald Judd Writings. This collection of interviews engages a diverse range of topics, from philosophy and politics to Judd's insightful critiques of his own work and the work of others such as Mark di Suvero, Edward Hopper, Yayoi Kusama, Barnett Newman, and Jackson Pollock. The opening discussion of the volume between Judd, Dan Flavin, and Frank

Stella provides the foundation for many of the succeeding conversations, focusing on the nature and material conditions of the new art developing in the 1960s. The publication also gathers a substantial body of unpublished material across a range of mediums including extensive interviews with art historians Lucy R. Lippard and Barbara Rose. Judd's contributions in interviews, panels, and extemporaneous conversations are marked by his forthright manner and rigorous thinking, whether in dialogue with art critics, art historians, or his contemporaries. In one of the last interviews, he observed, "Generally expensive art is in expensive, chic circumstances; it's a falsification. The society is basically not interested in art. And most people who are artists do that because they like the work; they like to do that [make art]. Art has an integrity of its own and a purpose of its own, and it's not to serve the society. That's been tried now, in the Soviet Union and lots of places, and it doesn't work. The only role I can think of, in a very general way, for the artist is that they tend to shake up the society a little bit just by their existence, in which case it helps undermine the general political stagnation and, perhaps by providing a little freedom, supports science, which requires freedom. If the artist isn't free, you won't have any art." Donald Judd Interviews is co-published by Judd Foundation and David Zwirner Books. The interviews expand upon the artist's thinking present in Donald Judd Writings (Judd Foundation/David Zwirner Books, 2016).

But the thing is, great interviews aren't the result of serendipity and intuition, but rather the result of careful planning and good journalistic habits. And Dean Nelson is here to show you how to nail the perfect interview every time. Drawing on forty-years of award-winning journalism and his experience as the founder and host of the Writer's Symposium by the Sea, Nelson walks readers through each step of the journey from deciding whom to interview and structuring questions, to the nitty gritty of how to use a recording device and effective note-taking strategies, to the ethical dilemmas of interviewing people you love (and loathe).
