Keeping in mind the immense importance and significance of the NCERT Textbooks for a student, Arihant has come up with a unique book containing only and all Question-Answers of NCERT Textbook based questions. This book has been designed for the students studying in Class X following the NCERT Textbook of Science. The present book has been divided into two parts covering the syllabi of Science into Term I and Term II. Term-I covers chapters namely Chemical Reactions & Equations, Acids, Bases & Salts, Metals & Non-Metals, Life Processes, Control & Coordination, Electricity, Magnetic Effects of Electric Current and Sources of Energy. Term-II

---

section covers Carbon and its Compounds, Periodic Classification of Elements, How do Organisms Reproduce, Heredity & Evolution, Light: Reflection & Refraction, Human Eye & Colourful World, Management of Natural Resources and Our Environment. This book has been worked out with an aim of overall development of the students in such a way that it will help students define the way how to write the answers of the textbook based questions. This book has answer to each & every question covered in the chapters of the textbook for Class X Science. Also each chapter in the book begins with a summary of the chapter which will help in effective understanding of the theme of the chapter and to make sure that the students will be able to answer all popular questions concerned to a particular chapter whether it is Long Answer Type or Short Answer Type Question. The book has been designed systematically in the simplest manner for easy comprehension of the chapters and their themes. The book also covers selected NCERT Exemplar Problems which will help the students understand the type of questions and answers to be expected in the actual Class X Science CBSE Board

Examination. As the book has been designed strictly according to the NCERT Textbook of Science for Class X and provides a thorough and complete coverage of the textbook based questions, it for sure will help the Class X students in an effective way for Science.

NCERT Chemistry Class 12 Pearson Education India

Brochures play a significant role in governmental public information provision. Every year many brochures are distributed to inform, instruct or persuade people. These brochures may benefit from a systematic design process, including applied research such as pretesting. Among communication professionals, the importance of pretesting is practically undisputed. Readers from the target audience are assumed to provide valuable insights into whether a document really works. Organizations therefore increasingly try to include a pretest in the design process of important documents. Various pretest methods have been developed and are being used in practice. However, little is known yet about the merits and restrictions of the available approaches. This book provides a framework for scholarly research into pretesting, and presents a series

of studies into the validity of one particular pretest instrument: a combination of the plus-minus method and a semi-structured questionnaire. This is one of the prevailing pretest approaches in the Dutch public information sector. The validity of the pretest instrument is assessed in two complementary ways. First, the question is addressed as to whether a revision on the basis of pretest results actually leads to an improvement in the functional quality of brochures. Second, a study is presented in which text and subject-matter experts judge the importance of pretest results. The pretest instrument appears to yield a large amount and a great variety of reader feedback, which in a subsequent revision may contribute to significant improvements in the effectiveness of brochures.
