This suspenseful tale of a glamorous marriage, a reckless affair, and a vengeful obsession is "deliciously readable" (Daily

Mail). Tom and Octavia Fleming glitter among the chattering classes of London in the late 1990s. Tom, a brilliant political strategist, and Octavia, an equally talented charity consultant, appear to have it all—good looks, money, success, and three pretty children—everything but precious time together. The truth is Tom is having an affair—and when Octavia realizes it, she plots her revenge against her husband. But nothing prepares Octavia for the identity of Tom's mistress, and her misdemeanors hardly compare to the revenge enacted by the other woman after Tom calls it off . . .

Described by Dominick Dunne as a writer "with verve and heart, immersing the reader in a world of engrossing and unforgettable glamour and passion," and praised by Barbara Taylor Bradford as "marvelously engrossing," Penny Vincenzi presents a novel packed with twists, turns, and thrills. "Exposes the cracks in a British 'power marriage' and charts the frightening evolution of a spurned woman's love into a dangerous obsession . . . "Things that Accompany Salvation:" in *Nineteen Sermons ...* U of Minnesota Press
In "Ethical Judgment," Abraham Edel makes clear the part played by biological and social scientific information in ethical judgment and moral action using psychological, anthropological, and economic materials as well as historical studies. Edel suggests that many controversies in ethical theory have emerged because different ethical theories made different scientific assumptions. In the almost forty years since his book was first published, life has become more complex and technological change has accelerated, bringing changes to our morality and ethical theory as

well as our conduct. If anything, his observations are even more pertinent, compelling us to examine the empirical core of ethical statements. Edel maintains that since our knowledge of social life and history is constantly growing, moral theories and ethical judgments ought to embody the best knowledge available at any point in time. However, because all knowledge and belief is only probable, there is never absolute certainty but only what Edel calls "residual indeterminacy" in human life and knowledge due to complexity and change. Edel lists four factors that form the basis for moral decisions: universal needs (food); perennial aspirations (friendships); central necessary conditions (job security); and critical contingent factors under special circumstances (land reform in a landholder-ruled society). In his new introduction, Edel applies those factors to the present day, discussing societal changes over the past forty years, such as the number of women in the workforce, the impact of the civil rights movement, and the fact that isolationism as a national policy is no longer feasible. "Ethical Judgment" is a recognized classic in the modern study of ethical theory. It will be valuable reading for sociologists, historians, and all scholars interested in the study of ethics and American culture.

Lead Me Into Temptation Abrams

What relation is there between the existence of a work of art and that of a living being? Between the existence of an atom and that of a value like solidarity? These questions become our own each time a reality—whether it is a piece of music, someone we love, or a fictional character—is established and begins to take on an importance in our lives. Like William James or Gilles Deleuze, Souriau methodically defends the thesis of an existential pluralism. There are indeed different manners of existing and even different degrees or intensities of existence: from pure phenomena to objectivized things, by way

of the virtual and the “ super-existent, ” to which works of art and the intellect, and even morality, bear witness. Existence is polyphonic, and, as a result, the world is considerably enriched and enlarged. Beyond all that exists in the ordinary sense of the term, it is necessary to allow for all sorts of virtual and ephemeral states, transitional realms, and barely begun realities, still in the making, all of which constitute so many “ inter-worlds. ”

Ethical Judgment Headline

"Thank you, Church Publishing, for reviving the Seabury Imprint and reissuing wonderful spiritual classics, such as this insightful look at the need to assimilate our temptations into our maturing spiritual journeys." --The Living Church In Allen's account of the Christian life, temptation offers us a doorway into the mystery of God. Far from trying to avoid the temptations of our daily lives, we need to recognize them as an essential part of our journey into the kingdom of God. Here our model is the three temptations Jesus faced in the wilderness: the temptations of material goods, security, and prestige. To face the reality of these temptations, even though we cannot overcome them, is to enter upon the

spiritual life.
