Temptation and Toil is a series of messages broken into two sections. The first section deals with temptation, its purpose, why the believer is tempted, and a chapter dealing with how our Lord was tempted entitled: "The Temptation of the Perfect Man." The second section deals with the Christian worker; one of the key chapters being: "A Bad Workman Blames His Tools." Mr. Aitken reveals that many of the Christian virtues are the spoils of conquered temptation.

A finalist for the Pulitzer Prize, Duong Van Mai Elliott's The Sacred Willow illuminates recent Vietnamese history by weaving together the stories of the lives of four generations of her family. Beginning with her great-grandfather, who rose from rural poverty to become an influential landowner, and continuing to the present, Mai Elliott traces her family's journey through an era of tumultuous change. She tells us of childhood hours in her grandmother's silk shop, and of hiding while French troops torched her village, watching while blossoms torn by fire from the

trees flutter "like hundreds of butterflies" overhead. She makes clear the agonizing choices that split Vietnamese families: her eldest sister left her staunchly anti-communist home to join the Viet Minh, and spent months sleeping in jungle camps with her infant son, fearing air raids by day and tigers by night. And she follows several family members through the last, desperate hours of the fall of Saigon—including one nephew who tried to escape by grabbing the skid of a departing American helicopter. Based on family papers, dozens of interviews, and a wealth of other research, this is not only a memorable family saga but a record of how the Vietnamese themselves have experienced their times.

The book deals with the relation between identity, ethics, and ethos in the New Testament. The focus falls on the way in which the commandments or guidelines presented in the New Testament writings inform the behaviour of the intended recipients. The habitual behaviour (ethos) of the different Christian communities in the New Testament are plotted and linked to their identity. Apart from analytical categories like ethos, ethics, and identity that are clearly defined in the book, efforts are also made to broaden the specific analytical categories related to ethical material. The way in which, for instance, narratives, proverbial expressions, imagery, etc. inform the reader about the ethical demands or ethos is also explored.

A Practical Exposition of the Gospel According to St. Mark in the Form of Lectures Thomas Nelson

In "Ethical Judgment," Abraham Edel makes clear the part played by biological and social scientific information in ethical judgment and moral action using psychological, anthropological, and economic materials as well as historical studies. Edel suggests that many controversies in ethical theory have emerged because different ethical theories made different scientific assumptions. In the almost forty years since his book was first published, life has become more complex and technological change has accelerated, bringing changes to our morality and ethical theory as well as our conduct. If anything, his observations are even more pertinent, compelling us to examine the empirical core of ethical statements. Edel maintains that since our knowledge of social life and history is constantly growing, moral theories and ethical judgments ought to embody the best knowledge available at any point in time. However, because all knowledge and belief is only probable, there is never absolute certainty but only what Edel calls "residual indeterminacy" in human life and knowledge due to complexity and change. Edel lists four factors that form the basis for moral decisions: universal needs (food); perennial aspirations (friendships); central necessary conditions (job security); and critical contingent factors under special circumstances (land reform in a landholder-ruled society). In his new introduction, Edel applies those factors to the present day, discussing societal changes over the past forty years, such as the number of women in the workforce, the impact of the civil rights movement, and the fact that isolationism as a national policy is no longer feasible. "Ethical Judgment" is a recognized classic in the modern study of ethical theory. It will be valuable reading for sociologists, historians, and all scholars interested in the study of ethics and American culture.

Into Temptation, the third book of the Lytton family trilogy, shifts the focus to New York City and Barty Miller. Rescued from the slums as a baby by Celia Lytton and now living in New York, Barty heads more than half of the Lytton publishing house. Falling on bad times, the family is worried that Barty will make a business decision that would be devastating to them. But will she? As events unfold, long-buried secrets concerning the whole family are revealed, shaking the very foundations of the Lytton's world. Readers have come to depend on Vincenzi for her enchanting prose style and the epic scope of her dramas; like the Lytton family sagas that precede it, Into Temptation does not disappoint.

important? Is it really so hard to communicate with an unseen God when we text, tweet, and e-mail people we cannot see? Could it be that we're not hungry for Him—we're simply too full from gorging ourselves at a media smorgasbord? Heather Marie Thompson challenges us to take a few moments every day for the next 30 days to think about what truly matters in life. Jesus needs us to connect with Him so that He can save us, but there's no app for that.
