Introduction to US law of federal income taxation of individuals. Includes material on tax credits, mark-to-market regimes, original-issue discount, consumption- vs. accretion-model income taxation. Solutions Manual for Introduction to Federal Income Taxation in Canada Foundation Press

Textbook explaining the Canadian federal income tax designed as a guide in the study at the introductory level of the major provisions of the Income tax Act.

Introduction to Federal Income Taxation in Canada [2018-2019]: Study guide Integrating theory and policy in an accessible, yet challenging approach, Federal Income Taxation features a tradition of distinguished authorship, reaching back to the original author Boris Bittker, eminent tax scholar from Yale Law. William A. Klein, who retires as of this edition, has a long-established reputation across academia, business and the federal government, and Bankman, Shaviro and Stark represent the best-known of younger tax scholars. A unique introduction lends insight to both the historical background and economic analysis of federal taxation for individuals. Problems interspersed between Notes and Questions help students comprehend the complexity of the material. The Sixteenth Edition expands the highly successful international perspective, comparing tax rules in a variety of countries. A revised discussion of progressivity against the background of current tax rate debates is completely up-to-date. An important new discussion of Mayo Foundation for Medical Education and Research v. United States considers the degree of judicial deference to Treasury regulations, and new material introduces recent codification of the economic

substance doctrine. Hallmark features of Federal Income Taxation: Problems interspersed between Notes and Questions Esteemed authorship of Original author Boris Bittker, eminent tax scholar of William A. Klein (retires as of this edition), distinguished reputation in taxation of Bankman, Shaviro and Stark, among the best-known younger tax scholars Unique introduction with insightful historical background and economic analysis Theory and policy integrated throughout Accessible, yet challenging Thoroughly updated, the revised Sixteenth Edition presents: Expansion of successful international comparisons to tax rules in other countries Revised and updated discussion of progressivity against the background of current tax rate debates New discussion of Mayo Foundation for Medical Education and Research v. United States, concerning the degree of judicial deference to Treasury regulations New material on recent codification of the economic substance doctrine

#### Selected Cases

Text and other materials in this supplement reflect developments in federal income taxation. Part I presents an introduction to federal income taxation. Part II examines new developments related to gross income, including windfalls, gifts, inheritances, discharge of indebtedness, damage awards, settlements, and insurance recoveries. Other sections deal with business deductions and credits, dual-purpose expenditures, capital gains and losses, tax shelters, timing of income deductions, the taxable unit, and alternative minimum tax.
