"Introduction to
living things".
BIRDS OF A
FEATHER When

people first began to travel in airplanes, birds often caused crashes. In 1960, 62 people were killed when birds flew into an airplane's engine. Something had to be done, but no one knew what kinds of birds were causing the crashes.

Online Middle School Life Science Course | Time4Learning
As you study life science, you will begin to see how important it is to ask and answer questions. Life scientists are look- ing for answers to many questions. These include fighting disease,

producing food, and protecting the environment.
FIGHTING DISEASE Before 1955, many people suffered from a disease called polio.
