Level 3 Oceanography Diploma •

Oxford Learning College
Introduction.
Oceanography is also often known as Marine science, and is the study of the world ' s oceans and the processes within it. The world is made up of 70% of the Earth ' s surface so we start by looking at how they are divided into oceans and the seas. Do you know the difference?

Oceanography Chapter 3 Study Guide Flashcards | Quizlet
Introduction to Oceanography is a textbook appropriate to an introductory-level university course in oceanography. The book covers the fundamental geological, chemical, physical and biological processes in the ocean, with an emphasis on the North Atlantic region.

What is physical

oceanography? Size
and diversity in the
ocean The majority
of the Earth is
covered by the
ocean, just over 71
percent to be exact;
in addition, the
ocean makes up 97
percent of the...
