Washback effect - Wikipedia
Washback is a phenomenon found internationally in high stakes examinations. This study set in Indonesia sought to explore the washback influence

of the national examination system on the attitudes, behaviours and motivations of teachers, learners and parents (Pearson, 1998). Investigating the Washback Effects of Task-based ... Examinations as instruments for educational change : investigating the washback effect of the Nepalese English exams. This study examines the washback effect of a final examination. Despite the general criticisms of a final examination for its negative influence on education, no empirical

evidence was noted in the existing literature; rather some evidence for positive washback was found.

This study seeks to explore the washback effect of the Malaysian University English Test (MUET), a high-stakes compulsory university entry test. Focusing on students as the main participants in this research, the issue of how Malaysian university students perceive the MUET

and their own self-efficacy in relation to the test is examined. Investigating the Washback Effect of the MUET as a ... Washback effect in testing is typically seen as either negative, or positive (sometimes referred to as washforward). Washback may be considered harmful to more fluid approaches in language education where definitions of language ability may be limited; however, it may be considered beneficial when good teaching practices result. Washback can also be positive or negative in that it either maintains or hinders the accomplishment of

educational goals. [PDF] Investigating the Washback Effect of the MUET as a ... Investigating the Washback Effects of Task-based Instruction on the Iranian EFL Learners ' Vocabulary Learning. English Language Teaching; Vol. 9, No. 12; 2016 ISSN 1916-4742 E-ISSN 1916-4750 Published by Canadian Center of Science and Education 16. 2. ABSTRACT.
The influence a test has on teaching and learning is commonly referred

to as the
‘ washback
effect ’ . It is often
argued that English
examinations in
Japan, which tend
to be heavily gram
mar-orientated,
have a negative
washback effect on
teaching and
learning. The areas
of writing and
speaking are of
particular concern
as both tend to be
assessed via indirect
testing methods.
