Here is an innovative exploration of the blues aesthetic that reflects the literary work created by Black authors and illustrators for the Black child reader. This book examines literature written for Black children, using critical and creative writings - by artists, scholars, and critics - that define the blues within Black «adult» literature, poetry, and the visual arts. The book identifies Black children’s literature published in the past forty years by authors and illustrators who can be classified as blues artists, and whose work reflects social, political, economical, and historical developments of the Black experience throughout the United States. Referencing work created by Jacqueline Woodson, Walter Dean Myers, John Steptoe, Tom Feelings, Sherley Anne Williams, and others, this book demonstrates how the blues aesthetic now includes the literature dedicated to Black children.

You have heard the questions before, and you may have even asked them yourself: "If God truly loves me, then why would he just allow ___ (FILL IN THE BLANK) _ to happen to me?" Let's be honest for a minute here. If God really did so love the world, then why does He seem to be invisible when people are dying of cancer, starvation, torture, and disease? Why does He allow hate-filled people to come to power and inflict suffering on others? Why does He seem so invisible when the day to day struggles knock the wind out of us and demand we carry on as if nothing ever happened? WHY DOES GOD SEEM TO BE INVISIBLE? This book is intended to present perspectives that reveal God’s “Footprint in the snow” if you will. When you can learn to spot the footprint, then the “invisible” becomes the most amazing comfort you will ever experience.

A gripping and entertaining tale of terror and suspense as well as a potent Faustian allegory of hubris and science run amok, *The Invisible Man* endures as one of the signature stories in the literature of science fiction. A brilliant scientist uncovers the secret to invisibility, but his grandiose dreams and the power he unleashes cause him to spiral into intrigue, madness, and murder. The inspiration for countless imitations and film adaptations, *The Invisible Man* is as remarkable and relevant today as it was a hundred years ago. As Arthur C. Clarke points out in his Introduction, “The interest of the story . . . lies not in its scientific concepts, but in the brilliantly worked out development of the theme of invisibility. If one could be invisible, then what?”

The hidden brain is the voice in our ear when we make the most important decisions in our lives—but we’re never aware of it. The hidden brain

decides whom we fall in love with and whom we hate. It tells us to vote for the white candidate and convict the dark-skinned defendant, to hire the thin woman but pay her less than the man doing the same job. It can direct us to safety when disaster strikes and move us to extraordinary acts of altruism. But it can also be manipulated to turn an ordinary person into a suicide terrorist or a group of bystanders into a mob. In a series of compulsively readable narratives, Shankar Vedantam journeys through the latest discoveries in neuroscience, psychology, and behavioral science to uncover the darkest corner of our minds and its decisive impact on the choices we make as individuals and as a society. Filled with fascinating characters, dramatic storytelling, and cutting-edge science, this is an engrossing exploration of the secrets our brains keep from us—and how they are revealed.

Life’s ultimate adventure—its grandest game and greatest challenge—is the spiritual transformation of the self. According to Swiss psychiatrist Carl Jung, personality and spirituality are interrelated, spirituality flowing out of individuality. Noting that people differ in fundamental ways, even though they possess the same instincts to drive them from within, Jung discovered that preference, rather than instinct, upbringing, environment, or genetic conditioning, is central to personality. The task of spirituality, then, is not to help us achieve correct doctrine or attain saintly status, but rather to help us best understand our humanity. This endeavor drives *Deeper Splendor*, a study of spirituality and personality in modern literature. We focus on modern literature, rather than on theology, philosophy, psychology, or sociology, because, as this volume makes clear, one of the best resources for studying transformative spirituality is great literature. The great power of literature is that it speaks of human action and thought, not in the dry, matter-of-fact terms of history, ethics, psychology, or some other science, but in ways that are lively, uplifting, and productive. Engaging with great literature is like beginning a love affair. Such encounters may appear daunting at first, but when you fall in love, you want to know everything about the object of your love, and every encounter leaves you wanting more. When literature enhances spirituality—as is true in the dozen or more selections examined in *Deeper Splendor*—each literary moment renders us more fully alive. Like its companion texts, *Wading in Water* and *Deep Splendor*, this volume is useful for individual or group study. Each chapter concludes with questions suitable for discussion or reflection.

“The *Man Who Lived Underground* reminds us that any ‘greatest writers of the 20th century’ list that doesn’t start and end with Richard Wright is laughable. It might very well be Wright’s most brilliantly crafted, and ominously foretelling, book.” —Kiese Laymon A major literary event: an explosive, previously unpublished novel about race and violence in America by the legendary author of *Native Son* and *Black Boy* Fred Daniels, a Black man, is picked up by the police after a brutal double murder and tortured until he confesses to a crime he did not commit. After signing a confession, he escapes from custody and flees into the city’s sewer system. This is the devastating premise of this scorching novel, a never-before-seen masterpiece by Richard Wright. Written between his landmark books *Native Son* (1940) and *Black Boy* (1945), at the height of his creative powers, it would see publication in Wright’s lifetime only in drastically condensed and truncated form, and ultimately be included in the posthumous short story collection *Eight Men* (1961). Now, for the first time, by special arrangement with the author’s estate, the full text of the work that meant more to Wright than any other (“I have never written anything in my life that stemmed more from sheer inspiration”) is published in the form that he intended, complete with his companion essay, “Memories of My Grandmother.” Malcolm Wright, the author’s grandson, contributes an afterword.

First published in 1897, *The Invisible Man* is one of the first science fiction stories. The disturbing tale centers on Griffin, a scientist who has discovered the means to make himself invisible. His initial, almost comedic, adventures are soon overshadowed by the bizarre streak of terror he unleashes upon the inhabitants of a small village. Notable for its sheer invention, suspense, and psychological nuance, *The Invisible Man*

had been filmed many times and continues to enthrall science-fiction fans today as it did the reading public nearly 100 years ago.

Describing the silliness and 'feminine fatuity' of many popular books by lady novelists, George Eliot perfectly skewers the formulaic yet bestselling works that dominated her time, with their loveably flawed heroines. She also examines the great women writers of France and their enrichment of the culture, and the varying qualities of literary translations. GREAT IDEAS. Throughout history, some books have changed the world. They have transformed the way we see ourselves - and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives - and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

The work of one of the most formidable figures in American intellectual life." -- Washington Post Book World The seventeen essays collected in this volume prove that Ralph Ellison was not only one of America's most dazzlingly innovative novelists but perhaps also our most perceptive and iconoclastic commentator on matters of literature, culture, and race. In *Going to the Territory*, Ellison provides us with dramatically fresh readings of William Faulkner and Richard Wright, along with new perspectives on the music of Duke Ellington and the art of Romare Bearden. He analyzes the subversive quality of black laughter, the mythic underpinnings of his masterpiece *Invisible Man*, and the extent to which America's national identity rests on the contributions of African Americans. Erudite, humane, and resounding with humor and common sense, the result is essential Ellison.

A New York Times Bestseller An unflinching account of what it means to be a young black man in America today, and how the existing script for black manhood is being rewritten in one of the most fascinating periods of American history. How do you learn to be a black man in America? For young black men today, it means coming of age during the presidency of Barack Obama. It means witnessing the deaths of Oscar Grant, Trayvon Martin, Michael Brown, Akai Gurley, and too many more. It means celebrating powerful moments of black self-determination for LeBron James, Dave Chappelle, and Frank Ocean. In *Invisible Man, Got the Whole World Watching*, Mychal Denzel Smith chronicles his own personal and political education during these tumultuous years, describing his efforts to come into his own in a world that denied his humanity. Smith unapologetically upends reigning assumptions about black masculinity, rewriting the script for black manhood so that depression and anxiety aren't considered taboo, and feminism and LGBTQ rights become part of the fight. The questions Smith asks in this book are urgent--for him, for the martyrs and the tokens, and for the Trayvons that could have been and are still waiting.
