Unlock the power of Pages for Mac and iPad! Version 3.0, updated 01/12/2021 Apple's Pages word processor is a big, rich app with hundreds of features tucked away in nooks and crannies, making Michael E. Cohen's comprehensive book an essential resource for newbies and experts alike. Whether you prefer to dive into the details or get quick help with a particular feature, this book has got you covered. In this massively revised third edition, Michael expands his already extensive guide, detailing all the significant changes Apple has made to Pages since the last version of the book was released, including support for macOS 11 Big Sur and iPadOS 14. Among many other new and updated features, learn about adding drop caps to paragraphs, adding titles and captions to objects, using shared iCloud folders with Pages, and importing iBooks Author projects; and on an iPad, discover how to view two documents at once, use the new reading view, and enter

handwritten text. Note: This edition of the book focuses primarily on the Mac and iPad versions of Pages, although it does cover the iPhone/iPod touch and web versions of the app to a limited extent. With Michael's help, you can navigate Pages like a pro. You'll also learn how to:

- Find all the tools you need, whether on a Mac or an iPad
- Do everyday word processing, including working with fonts, tabs, indents, rulers, search and replace, spell checking, and more
- Format longer, more complex documents, with customized headers, footers, page numbers, tables of content, footnotes, and section breaks
- Manage styles, including paragraph styles, character styles, list styles, and object styles
- Create your own templates, complete with master objects
- Master the many multi-touch gestures in iPadOS that give you pinpoint control over page elements
- Include complex tables and charts and make them look exactly the way you want
- Customize layout and manipulate graphics like a pro
- Collaborate with others in real time using iCloud
- Share your documents across devices, using Mac, iPad, iPhone/iPad touch, or almost any web browser

If you believe some news stories, the latest iPad update (iOS 9) is radically different and you should beware of updating! They're wrong! This book is for both new users of iPad and those upgrading to the latest update. I'll walk you through the changes and show you why updating is nothing to be afraid of. The iPad doesn't come with a handbook / user guide, but don't believe other handbooks that tell you that's why you need to buy their handbook! iPad does have a

handbook! So why do you need this book? This book was written for my parents; people who needed to know as much as possible, as quickly as possible. There are people who want to know every single little detail about the iPad, and you will find that in Apple's comprehensive manual; but if you are like my parents—new to the iPad and just want to learn all the basics in about 30 minutes or an hour, then this guide will help you—people who just want to know how to add their contacts, take photos, and email. It's not for advance users, although if you are upgrading from the previous Apple iOS (iOS 8) you will probably find it useful. If you are ready to learn, then read on!
