iOS Resolution Reference - iPad, iPhone, and iPod Touch ...

I have read that the rumored new iPad 10.5 may have the same resolution as the current 12.9 iPad Pro. Does this mean apps will need to be updated to accommodate this new resolution? If so, my hope is that this will mean these updated apps will improve the 12.9 experience as well, which has been somewhat neglected since it is less popular.

The display hardware periodically captures data from sensors embedded in the screen. When a user touches the screen, the sensor information is recorded, processed, and delivered to UIKit. On displays that support 3D Touch, additional information about how much pressure the user applied to the display is also recorded.
