For years, people have said tablets might one day replace notebook computers; for most people, the tablet was a nice casual device, but

---

not something that made them ditch their notebook entirely. The iPad might just change people's view. This book will show you how it's different from other tablets (and what's the same), teach you all the basics, show you how to get more from the device (and how to use accessories like the Apple Pencil and the Smart Keyboard), and help you pick apps that take advantage of the larger screen size. This book is newly updated to cover iOS 10 (Apple's latest iPad operating system). If you want to do more with the iPad, then read on!
