What to Do with an Unresponsive iPad. Sometimes your iPad refuses to respond. Before you throw it through the window and run to the Apple store, there are a few troubleshooting things you can try. If your iPad goes dead on you, try these solutions: Charge the battery. The problem is most likely to be a power issue, so the first thing to do is plug the cable into the power adapter, plug the adapter into a wall outlet, plug the other end of the cable into your iPad, and charge the battery.
