iPhone 3G Portable Genius Peachpit Press
 A book that uses a "learn by doing" approach provides the reader with the information one

needs to make Apple's iPhone 3G or 3GS an important part of one's life quickly and easily, including just enough background and technical detail and plenty full color step-by-step instructions. Original.

A Beginners Guide to iOS 9 and iPhone 6s / 6s Plus iPhone Survival Guide - Concise Step-by-Step User Guide for iPhone 3G, 3GS: How to Download FREE eBooks, eMail from iPhone, Make Photos and Videos & More

If you believe some news stories, the latest iPhone update (iOS 9) is radically different and you should beware of updating! They're wrong! This book is for both new users of iPhone and those upgrading to the latest update. I'll walk you through the changes and show you why updating is nothing to be afraid of. The iPhone doesn't come with a handbook / user guide; this doesn't mean that you have to buy someone else's handbook! iPhone does have a handbook! There are three ways to get it: 1. Download it from the Apple iBookstore (it's free) 2. Get it online by going to manuals.info.apple.com 3. Get it on your phone; if you go to your bookmarked pages on Safari, the last bookmark is for the 'iPhone User Guide'. So why do you need this book? This book was written for my parents; people who needed to know as much as possible, as quickly as possible. There are people who want to know every single little detail about the iPhone, and you will find that in Apple's comprehensive manual. If you are like my parents though, new to the iPhone and just want to learn all the basics in about 30 to 60 minutes or an hour that is, then this guide will help you. People who just want to know how to add their contacts, how to take photos, and how to email. It's not for advanced users, though if you are upgrading from the previous

Apple iOS (iOS 8) then you will most probably find it useful. If you are ready to learn read on!

iPhone: The Missing Manual MicroStrategy Get up to speed with the most essential tips, tricks, and shortcuts for the iPhone 3G S The popularity of the first generation of iPhone was unarguably impressive. Then came the iPhone 3G (third generation) with its support for faster broadband wireless networks, built-in GPS capabilities, and better battery life—and it didn't disappoint. There's also comprehensive coverage of everything from web surfing, to downloading movies and music from the iPad's iTunes app; and with hundreds of app recommendations scattered throughout the text, this digital book is essential reading. Whether you were first in line at the Apple Store on release day or are simply fantasising about buying your own, The Rough Guide to the iPad is the book for you.

iPhone MicroStrategy
If you're looking for a book that focuses on just the most important, most useful, and most fun stuff about your iPhone 4--you've found it. There are basically two types of iPhone books out there: (1) The "tell-me-all-about-it" kind, which includes in-depth discussions on everything from wireless network protocols to advanced compression codes. (2) Then there's this book, which instead is a "show-me-how-to-do-it" book that skips all the confusing techno-jargon and just tells you, in plain, simple English, exactly how to use the iPhone features you want to use most. The iPhone Book is from Scott Kelby, the award-winning author of the smash bestseller, The iPod Book, who takes that same highly acclaimed, casual, straight-to-the-point concept and layout and brings it to learning Apple's amazing iPhone. Scott teams up once again with gadget guru and leading iPhone authority Terry White to put together a book that is an awful lot like the iPhone itself--simple to use and fun to learn. The book's layout is brilliant, with each page covering just one single topic, so finding the information you need is quick and easy, with a large full-color photo on each page so you can see

exactly how it works. Scott and Terry added even more tips and tricks than the previous editions, and made it even easier by focusing on just the most useful and most requested iPhone 4 features, so you can start really using your iPhone today!

The iPhone Book, Third Edition (Covers iPhone 3GS, iPhone 3G, and iPod Touch) John Wiley & Sons

If you believe some news stories, the latest iPad update (iOS 9) is radically different and you should beware of updating! They 're wrong! This book is for both new users of iPad and those upgrading to the latest update. I 'll walk you through the changes and show you why updating is nothing to be afraid of. The iPad doesn 't come with a handbook / user guide, but don 't believe other handbooks that tell you that 's why you need to buy their handbook! iPad does have a handbook! So why do you need this book? This book was written for my parents; people who needed to know as much as possible, as quickly as possible. There are people who want to know every single little detail about the iPad, and you will find that in Apple 's comprehensive manual; but if you are like my parents--new to the iPad and just want to learn all the basics in about 30 minutes or an hour, then this guide will help you--people who just want to know how to add their contacts, take photos, and email. It 's not for advance users, although if you are upgrading from the previous Apple iOS (iOS 8) you will probably find it useful. If you are ready to learn, then read on!
