iPod nano has an internal, non – user-replaceable battery. For best results, the first time you use iPod nano, let it charge for about three hours or until the battery icon shows that the battery is fully charged. The iPod nano battery is 80-percent charged in about one and a half hours, and fully charged in about three hours.

Hey guys, I just got a good deal off eBay of a used iPod Nano 6th Gen in the mail today, but it seems quite dirty. Their is much dust and gunk under the clip, the buttons and screens have many smudges, and the the 30-pin connector port and headphone jack are a little dirty on the inside, kinda moldy in too.
