The 6th generation iPod nano is pretty easy to identify. It's the only nano model with a square shape and matchbook size. Besides that, it sports a clip on the back, a touchscreen, and removes the clickwheel and video camera that the 5th generation model offered.

Because using the iPod nano 6th generation with a Mac computer requires iTunes 10 or higher, which in turn requires Mac OS X Leopard system software, Apple will upgrade the system software of participants running earlier versions of OS X, on request [citation needed] but this leaves users that do not have access to iTunes without a working device (because Apple changed the hashing of the music database which prevented the 6th generation iPod Nano from being used with open source software via ...
