The Iliad of Homer Franklin Classics

A Scottish national hero tells the story of a daring exploit that rocked Great Britain—and the love of country that inspired it. Ian Robertson Hamilton was an unknown law student at Glasgow University—until Christmas Eve 1950. On that night, assisted by Alan Stuart, Gavin Vernon, and Kay Matheson, he took the Stone of Destiny from beneath the Coronation Chair in Westminster Abbey. The stone, once used in the coronation of Scottish monarchs, had been taken nearly seven centuries earlier by Edward I, and its recovery was a major symbolic victory, making Hamilton a Scottish national hero. In England, however, the act had the opposite effect, and a manhunt for the "vulgar vandals" was launched to satisfy the outrage of the English establishment and bring the perpetrators to justice. In the end, the Stone was given up, but the gang

was not charged. This solitary act set Hamilton on a path for the rest of his life—from which he has not diverged. Decades after that fateful night, the story still holds people spellbound when Hamilton recounts it. In this book, Ian Hamilton sets down the chain of events that led to his decision to go to London and remove the Stone and provides a minute-by-minute account of the act and the aftermath. The basis of a major Hollywood film starring Robert Carlyle and Billy Boyd, *The Stone of Destiny* is not simply a retelling of a stunt that made nationwide news. It is a book about how a nation's conscience was stirred by a symbolic act that changed the lives of many.

The Official Railway Guide Independently Published
Ram accelerators are among the most advanced tools for generating fluid dynamics data in supersonic reacting systems. They require the combined action of combustion, wave systems and turbulence and are still a serious challenge for physicists and engineers. This book will serve as an introductory textbook on ram accelerators and gives a thorough overview on research activities, performance modeling and high-pressure detonation dynamics.

Stone of Destiny

The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, Yvain, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. Yvain is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.

University Hall, known as Old Fraser, was built by John Fraser, second chancellor of the University of Kansas, and by the citizens of Lawrence, who raised a bond issue to fund it. It was opened in 1872. Up-to-date in every way, it was heated with steam and lighted with gas, and every room was supplied with water. And although electric lights did not appear at KU until 1888, the building featured electrically powered clocks in each room. In addition, mechanically inclined students would also be able to work with steam-driven engines, lathes and other machinery. Being 300 feet long, 100 feet wide, and rising four stories, it was spacious enough to house the entire University: departmental and administrative offices, laboratories, classrooms, the library, a student reading room, even a large, second-floor auditorium. Old Fraser was the center of campus life, even as the university expanded into and through the twentieth century; the site of memory for many alumni. After it was razed in 1965 a number of its architectural features were incorporated into the Union and Alumni Center. Published by the Historic Mount Oread Fund.
