I have a good link with  
manuals of various engines  
I'll post as soon as I find it. If  
you email Hobbico they  
sometimes have older  
manuals that for some  
reason aren't scanned in. I  
asked for the old 1981  
FS-40 manual and got it.

Also got a Mk1 ASP 46 aero

engine, the original early 90's  
version and can't fault it, having  
power, reliable idle and instant  
transition - even better than some  
OS's. Also seen a old ASP 32 blue  
head that was atrocious, never gave  
a reliable flight, but today's  
ASP/SC/Magnum are just as good  
as OS/Irvine, cheaper and parts are  
cheaper.
