West is a high school senior who has everything going for him until an accident leaves him paralyzed. Strapped down in his hospital bed, slipping in and out

of consciousness, West is terrified and alone. Until he meets Olivia. She's the girl next door-sort of. A patient in the room next to his, only Olivia can tell what West is thinking, and only Olivia seems to know that the terrible dreams he's been having are not just a result of his medication. Yet as West comes to rely on Olivia-to love her, even-certain questions pull at him: Why has Olivia been in the hospital for so long? And what does it mean that she is at the center of his nightmares? But the biggest question of all comes when West begins to recover and learns that the mysterious girl he's fallen in love with has a secret he could never have seen coming.

Global Weirdness summarizes everything we know about the science of climate change, explains what is likely to happen to the climate in the future, and lays out, in practical terms, what we can do to avoid further shifts. In sixty easy-to-read entries, Climate Central

tackles basic questions such as: -Is climate ever “ normal ” ? -Why and how do fossil-fuel burning and other human practices produce greenhouse gases? -What natural forces have caused climate change in the past? -What risks does climate change pose for human health? -What accounts for the diminishment of mountain glaciers and small ice caps around the world since 1850? -What are the economic costs and benefits of reducing carbon emissions? Illustrated throughout with clarifying graphics, Global Weirdness enlarges our understanding of how climate change affects our daily lives, and arms us with the incontrovertible facts we need to make informed decisions about the future of the planet, and of humankind.
