Have You Seen Zandile? is a wonderful South African resource, still as fresh and absorbing as when it was first written. Perfectly scripted, and with Gcina Mhlophe's sure instinct for stagecraft, it recounts the very personal story of Zandile, who is snatched away from her grandmother's loving care and taken to live with her matriarchal family in rural Transkei. Moving, funny and convincing, full of Zandile's shrewd, youthful insights, the play offers an illuminating window into the 1960s world that it depicts, with its issues of white dominance, rural hardship and black female repression. Have You Seen Zandile? is already an established favorite in performance circles, and is fast becoming a South African classic.

In this ambitious and densely worked novel, we begin to see early signs of Ngugi's increasing bitterness about the ways in which the politicians are the true benefactors of the rewards of independence.

The Diary of Henry Francis Fynn Hachette UK

In 2000, the Millennium Development Goals set out targets aimed at creating a safer, more prosperous, and more equitable world. If these goals were to be achieved, children ' s lives would indeed be transformed. In this collection, achievements against these targets are identified, with each contributor examining the progress made in early years provision in Australia, China, England, Greece, the Netherlands, Portugal, South Africa, and Sweden. They highlight the priorities and agendas of their respective governments, and focus on the trends and issues which are particularly relevant to each situation, thereby revealing the social and educational inequalities that persist across countries. A common theme running through this volume concerns the political tensions that arise when governments and educators hold fundamentally different views about the nature and purpose of early years education and the needs of children and families. It is clear that although the past two decades have seen many changes in attitude towards the importance of the early years of life; politically, economically, and environmentally, much still remains to be done if the Millennium Development Goals for young children and their families are to be fully met. Despite this, this volume demonstrates that those who work in this area continue to experience a deep concern for the well-being of young children, which transcends cultures, frontiers, and political and sectarian divides. This book was originally published as a special issue of the International Journal of Early Years Education.

Perspectives Emerging from South Africa and Beyond African Books in Print/Focus on First Year Success/Perspectives Emerging from South Africa and Beyond

What does it mean to be Zulu today? Does being Zulu today differ from what it meant in the past? "Zulu Identities" wrestles with these and many other related questions to show how the characteristic traditions of a pre-industrial people have evolved into different cultural expressions of "Zulu-ness" in modern South Africa. This authoritative and specially commissioned volume, which contains more collected expertise on the Zulus than is available from any other source, examines the legacies of Shaka, the intrigues of Zulu royalty, gender and generational struggles, cultural and symbolic projections, and spirituality. It highlights the debates in contemporary South Africa over the manipulation of Zulu heritage, whether deployed for party political purposes or exploited to promote eco- and battlefield-tourism. And finally the book contemplates the future of Zulu identity in a unitary South Africa seeking to embrace the forces of globalization.

Originally published in 1978, this volume is divided into 3 parts. Part 1 presents an overview of the linguistic situation in Zambia: who speaks which languages, where they are spoken, what these languages are like. Special emphasis is given to the extensive survey of the languages of the Kafue basin, where extensive changes and relocations have taken place. Part 2 is on language use: patterns of competence and of extension for certain languages in urban settings, configurations of comprehension across language boundaries, how selected groups of multilinguals employ each of their languages and for what purposes, what languages are used in radio and television broadcasting and how decisions to use or not use a language are made. Part 3 involves language and formal education: what languages, Zambian and foreign, are used at various levels in the schools, which are taught, with what curricula, methods, how teachers are trained, how issues such as adult literacy are approached and with what success.

My father says that a journey should always change your life in some way. Well, when you have nothing, I suppose a journey promises everything. "Diamonds for everyone." That's what fifteen-year-old Patson Moyo hears when his family arrives in the Marange diamond fields. Soon Patson is working in the mines along with four friends, pooling their profits for a chance at a better life. Each of them hopes to find a girazi, a priceless stone that could change their circumstances forever. But when the government's soldiers come to Marange, Patson's world is shattered. Set against the backdrop of Zimbabwe's brutal recent history, Diamond Boy is the story of a young man who succumbs to greed but finds his way out through a transformative journey to South Africa in search of his missing sister, in search of freedom, and in search of himself. A high-stakes, harrowing adventure in the blood-diamond fields of southern Africa, from the critically acclaimed author of Now Is the Time for Running.

This study examines metaphor in Zulu in the light of conceptual metaphor theory from the perspective of a Bible translator. It then considers the possibility of translating Biblical Hebrew metaphor into Zulu. Selected Hebrew metaphors in the Book of Amos are analysed according to conceptual metaphor theory and compared with the conceptual metaphor analysis of the corresponding verses in existing Zulu translations, thereby increasing the empirical basis of the theory, and showing that it is valid for the study of both Biblical Hebrew and Zulu and a useful tool for translators. The Education Triple Cocktail brings together rigorous quantitative and qualitative research on a new approach to improving foundational teaching and learning for schoolchildren living in working-class, poor and remote rural communities in resource-constrained systems like South Africa. At the core of this book is the theory and evidence for a powerful, new, interlocking and mutually reinforcing change model. Inspired by the AIDS treatment story, the three-pronged approach of structured daily lesson plans, appropriate and high-quality educational materials, and one-on-one instructional coaching to help teachers transform their instructional practices in early grade classrooms, shows that it will improve learning outcomes. For education systems defined by low levels of early grade learning and profoundly unequal outcomes, The Education Triple Cocktail offers a theoretically informed, evidence-based way forward. This book will be of immense use to teachers, students of Education, policymakers and parents.

This is the moving story of the unforgettable Rosa Burger, a young woman from South Africa cast in the mold of a revolutionary tradition. Rosa tries to uphold her heritage

handed on by martyred parents while still carving out a sense of self. Although it is wholly of today, Burger's Daughter can be compared to those 19th century Russian classics that make a certain time and place come alive, and yet stand as universal celebrations of the human spirit. "Why are you learning Zulu?" When Mark Sanders began studying the language, he was often asked this question. In *Learning Zulu*, Sanders places his own endeavors within a wider context to uncover how, in the past 150 years of South African history, Zulu became a battleground for issues of property, possession, and deprivation. Sanders combines elements of analysis and memoir to explore a complex cultural history. Perceiving that colonial learners of Zulu saw themselves as repairing harm done to Africans by Europeans, Sanders reveals deeper motives at work in the development of Zulu-language learning—from the emergence of the pidgin Fanagalo among missionaries and traders in the nineteenth century to widespread efforts, in the twentieth and twenty-first centuries, to teach a correct form of Zulu. Sanders looks at the white appropriation of Zulu language, music, and dance in South African culture, and at the association of Zulu with a martial masculinity. In exploring how Zulu has come to represent what is most properly and powerfully African, Sanders examines differences in English- and Zulu-language press coverage of an important trial, as well as the role of linguistic purism in xenophobic violence in South Africa. Through one person's efforts to learn the Zulu language, *Learning Zulu* explores how a language's history and politics influence all individuals in a multilingual society.
