In 2000, the Millennium Development Goals set out targets aimed at creating a safer, more prosperous, and more equitable world. If these goals were to be achieved, children's lives would indeed be transformed. In this collection, achievements against these targets are identified, with each contributor examining the progress made in early years provision in Australia, China, England, Greece, the Netherlands, Portugal, South Africa, and Sweden. They highlight the priorities and agendas of their respective governments, and focus on the trends and issues which are particularly relevant to each situation, thereby revealing the social and educational inequalities that persist across countries. A common theme running through this volume concerns the political tensions that arise when governments and educators hold fundamentally different views about the nature and purpose of early years education and the needs of children and families. It is clear that although the past two decades have seen many changes in attitude towards the importance of the

early years of life; politically, economically, and environmentally, much still remains to be done if the Millennium Development Goals for young children and their families are to be fully met. Despite this, this volume demonstrates that those who work in this area continue to experience a deep concern for the well-being of young children, which transcends cultures, frontiers, and political and sectarian divides. This book was originally published as a special issue of the International Journal of Early Years Education.

Until researchers and theorists account for the complex relationship between resilience and culture, explanations of why some individuals prevail in the face of adversity will remain incomplete. This edited volume addresses this crucial issue by bringing together emerging discussions of the ways in which culture shapes resilience, the theory that informs these various studies, and important considerations for researchers as they continue to investigate resilience. Using research from majority and minority world contexts, 'Youth Resilience and Culture: Commonalities and Complexities' highlights that non-stereotypical, critical appreciation of the cultural systems in which youth are embedded, and/or affiliate with, is pivotal to understanding why particular resilience processes matter for particular youth in a particular life-world at a particular point in time. In doing so, this book sensitizes readers to the importance of accounting for the influence of cultural contexts on resilience processes, and to the danger of conceptualising and/or operationalising resilience, culture, and their interplay, simplistically or idealistically. In short, the progressive contents of 'Youth Resilience and Culture: Commonalities and Complexities' make it an essential read for resilience-focused scholars,

students, academics, and researchers, as well as policy makers, practitioners, and humanitarian workers engaged with high-risk populations.

The Education Triple Cocktail brings together rigorous quantitative and qualitative research on a new approach to improving foundational teaching and learning for schoolchildren living in working-class, poor and remote rural communities in resource-constrained systems like South Africa. At the core of this book is the theory and evidence for a powerful, new, interlocking and mutually reinforcing change model. Inspired by the AIDS treatment story, the three-pronged approach of structured daily lesson plans, appropriate and high-quality educational materials, and one-on-one instructional coaching to help teachers transform their instructional practices in early grade classrooms, shows that it will improve learning outcomes. For education systems defined by low levels of early grade learning and profoundly unequal outcomes, The Education Triple Cocktail offers a theoretically informed, evidence-based way forward. This book will be of immense use to teachers, students of Education, policymakers and parents.

LLBA. African Books in Print Focus on First Year Success Perspectives Emerging from South Africa and Beyond "Why are you learning Zulu?" When Mark Sanders began studying the language, he was often asked this question. In Learning Zulu, Sanders places his own endeavors within a wider context to uncover how, in the past 150 years of South African history, Zulu became a battleground for issues of property, possession, and deprivation. Sanders combines elements of analysis and memoir to explore a complex cultural history. Perceiving that colonial learners of Zulu saw themselves as repairing harm done to Africans by Europeans, Sanders reveals deeper motives at work in the development of Zulu-language learning—from the emergence of the pidgin Fanagalo among missionaries and traders in the nineteenth

century to widespread efforts, in the twentieth and twenty-first centuries, to teach a correct form of Zulu. Sanders looks at the white appropriation of Zulu language, music, and dance in South African culture, and at the association of Zulu with a martial masculinity. In exploring how Zulu has come to represent what is most properly and powerfully African, Sanders examines differences in English- and Zulu-language press coverage of an important trial, as well as the role of linguistic purism in xenophobic violence in South Africa. Through one person's efforts to learn the Zulu language, Learning Zulu explores how a language's history and politics influence all individuals in a multilingual society.

What does it mean to be Zulu today? Does being Zulu today differ from what it meant in the past? "Zulu Identities" wrestles with these and many other related questions to show how the characteristic traditions of a pre-industrial people have evolved into different cultural expressions of "Zuluness" in modern South Africa. This authoritative and specially commissioned volume, which contains more collected expertise on the Zulus than is available from any other source, examines the legacies of Shaka, the intrigues of Zulu royalty, gender and generational struggles, cultural and symbolic projections, and spirituality. It highlights the debates in contemporary South Africa over the manipulation of Zulu heritage, whether deployed for party political purposes or exploited to promote eco- and battlefield-tourism. And finally the book contemplates the future of Zulu identity in a unitary South Africa seeking to embrace the forces of globalization.

Originally published in 1978, this volume is divided into 3 parts. Part 1 presents an overview of the linguistic situation in Zambia: who speaks which languages, where they are spoken, what these

languages are like. Special emphasis is given to the extensive survey of the languages of the Kafue basin, where extensive changes and relocations have taken place. Part 2 is on language use: patterns of competence and of extension for certain languages in urban settings, configurations of comprehension across language boundaries, how selected groups of multilinguals employ each of their languages and for what purposes, what languages are used in radio and television broadcasting and how decisions to use or not use a language are made. Part 3 involves language and formal education: what languages, Zambian and foreign, are used at various levels in the schools, which are taught, with what curricula, methods, how teachers are trained, how issues such as adult literacy are approached and with what success.

de Wet: Plays Two Routledge
Includes the plays African Gothic, Good Heavens and Breathing In A farm lies in ruin. And with mother and father now gone, a brother and sister face eviction by an officious lawyer. Abandoned, they endlessly enact the rituals of punishment once visited upon them by their parents. Widely regarded as a milestone in South African theatre, the multi-award winning play African Gothic tells the story of their final 'dance macabre'. Despite overwhelming critical acclaim, it was also fiercely condemned by Afrikaans conservatives as being a subversive portrayal of repression. Good Heavens is a comedy thriller with the dark poetic heart of a folk-tale. Two spinster sisters, with their ailing mother and simple-minded brother, await the annual visit of

their youngest sister. Deeply envious of her beauty and youth, they hatch a diabolical plot to rid themselves of her forever. In *Breathing In*, on a stormy night in the last bitter months of the Second Anglo-Boer War, a seriously wounded General and his faithful Adjutant encounter a mysterious woman and her seductive other-worldly daughter, and are confronted with the subtle methods of survival these women have been forced to adopt. Accustomed to the rigours of war, the courageous Adjutant now faces a terrible choice.

Nadine Gordimer, winner of the 1991 Nobel Prize in Literature, was born and lives in South Africa.
