Asset Based Financing Emerald Group Publishing

As globalization is redefining the field of corporate finance, international finance is now part and parcel of the basic literacy of any financial executive. This is why International Corporate Finance is a "must" text for upper-undergraduates, MBAs aspiring to careers in global financial services and budding finance professionals. International Corporate Finance offers thorough coverage of the international monetary system, international financing, foreign exchange risk management and cross-border valuation. Additionally, the book offers keen insight on how disintermediation, deregulation and securitization are re-shaping global capital markets. What is different about International Corporate Finance? Each chapter opens with a real-life mini-case to anchor theoretical concepts to managerial situations. Provides simple decision rules and "how to do" answers to key managerial issues. Cross-border Mergers & Acquisitions, Project Finance, Islamic Finance, Asian Banking & Finance are completely new chapters that no other textbooks currently cover. Accompanied with a comprehensive instructor support package which includes case studies, an Instructor's Manual, PowerPoint slides, Multiple Choice Questions and more.

Islamic Banking in Indonesia John Wiley & Sons

The ongoing turbulence in the global financial markets has drawn attention to an alternative system of financial intermediation: Islamic banking and finance. This is now one of the fastest growing sectors within the market place and has, so far, remained on the sidelines of this unrest. Since the inception of Islamic banking thirty years ago the number and reach of Islamic financial institutions worldwide has risen significantly. Institutions offering Islamic financial services constitute a significant and growing share of the financial system in several countries, and market participants everywhere are joining the race to study and be a part of this emerging financial system. The Islamic Banking and Finance Workbook is a one-of-a-kind workbook on the topic, enabling readers to test their understanding of Islamic banking and finance concepts. Although suitable as a standalone learning tool, the book is designed to test the information covered in the companion book, *Introduction to Islamic Finance and Banking*, and covers the fundamentals of Sharia'a law, the Islamic contracts interpretations and definitions, Murabaha, Mudaraba, Musharaka, Istisna'a, Salam and Ijara modes of finance, Takaful and much more. Emphasis is placed on mini case studies, multiple choice questions and tests of the basic concepts. It also includes a full answer key and brief chapter summaries, as well as learning objectives. The Islamic Banking and Finance Workbook is an essential learning tool for students and practitioners who want to test their knowledge of the rapidly growing world of Islamic banking and finance.

Profit & Loss Sharing John Wiley & Sons

A comprehensive overview of key developments in Islamic banking In *Islamic Banking in Indonesia*, renowned economist Dr. Rifki Ismal explores current issues in Islamic banking and financial products with a particular focus on the danger of liquidity risk in Indonesia.

It approaches liquidity risk from the conventional perspective of international banking standards, as well as from the Islamic banking perspective. Dr. Ismal also covers the issues of asset-liability balancing, liquidity risk index, organizational structures for managing liquidity, industrial analysis, withdrawal risk, bankruptcy risk, moral hazard risk, and market risk. Compiling all the latest academic research on liquidity risk and other risks in Islamic banking, the book provides a theoretical foundation for managing risk that will be highly useful for researchers on Islamic banking and practitioners and academics. Written by a renowned expert on Islamic banking who works on monetary policy at the central bank of Indonesia Covers the latest developments in Islamic banking, particularly liquidity risk, for a rapidly expanding market Ideal for European and American readers, in addition to Asian readers, who need a fuller understanding of Islamic banking institutions, markets, and products With the latest academic research and the expertise of a leading practitioner in Islamic banking, this book offers in-depth coverage of the most pressing issues in the field.

Islamic Capital Market John Wiley & Sons

Can Islamic finance save the global system? *Islamic Finance and the New Financial System* describes how the adoption of Islamic finance principles in future regulatory decisions could help prevent future shocks in the global financial system. Using illustrations and examples to highlight key points in recent history, this book discusses the causes of financial crises, why they are becoming more frequent and increasingly severe, and how the new financial system will incorporate elements of Islamic finance – whether deliberately or not. With an introspective look at the system and an examination of the misconceptions and deficiencies in theory vs. practice, readers will learn why Islamic finance has not been as influential as it should be on the larger global system. Solutions to these crises are thoroughly detailed, and the author puts forth a compelling argument about what can be expected in the future. Despite international intervention and global policy changes, the financial system remains in a fragile state. There is an argument to be made about integrating Islamic finance into the new system to facilitate stronger resilience, and this book explains the nuts and bolts of the idea while providing the reader with a general understanding of Islamic finance. Understand the key principles of Islamic finance Examine the history of the current financial system Discover how Islamic finance can help build a new debt-free economy Learn how Islamic finance theory doesn't always dictate practice Although Islamic finance is a growing market, it is still a foreign concept to many. Those within the Islamic finance circles wonder why the system has yet to gain broader appeal despite its ability to create a strong and well-balanced economy. *Islamic Finance and the New Financial System* provides clever analysis and historical background to put the issues into perspective. *Economics, Business, and Islamic Finance in ASEAN* Economics Community Routledge

This is an exciting new introductory textbook which delivers a truly global exploration of international business. It provides an accessible and engaging overview of the key theories and models that underpin the global economy. The text gives attention to the challenges and ambitions of businesses in the developing world, including small and family-run businesses, as well as those of 'born-global' companies. *Managing Global Business* takes a practical approach to link theoretical concepts to real-world situations and offers a varied discussion into the key activities of the international manager, and a useful guide on employability opportunities. This textbook is recommended for established institutions as well as the rapidly expanding network of education centres in the developing world. It is designed as a core text for students of International Business and Business Management degrees at undergraduate and postgraduate level.

Financial literacy and financial education are not new topics, even though interest in these topics among policymakers, financial authorities, and academics continues to grow. The *Routledge Handbook of Financial Literacy* provides a comprehensive reference work that addresses both research perspectives and practical applications to financial education. This is the first volume to summarize the milestones of research in financial literacy from multiple perspectives to offer an overview. The book is organized into six parts. The first three parts provide a conceptual framework, which discusses what financial literacy is, how it should be measured, and explains why it represents a relevant topic and effective tool in enhancing decision-making among consumers as well as consumer protection strategies. Part IV addresses the connection between financial education and financial literacy, with chapters about financial education in school settings as well as for adults. This part includes an analysis of the role of Fintech and the use of

gamification in financial education. Part V is a collection of contributions that analyze financial literacy and financial education around the world, with a focus on geographical areas including the U.S., South America, Western Europe, Eastern Europe, Asia, and Africa. This part also considers how financial literacy should be addressed in the case of Islamic finance. The concluding part of the book examines how financial literacy is related to other possible approaches to consumer finance and consumer protection, addressing the relationships between financial literacy and behavioral economics, financial well-being, and financial inclusion. This volume is an indispensable reference for scholars who are new to the topic, including undergraduate and graduate students, and for experienced researchers who wish to enrich their knowledge, policymakers seeking a broader understanding and an international perspective, and practitioners who seek knowledge of best practices as well as innovative approaches.

Islamic Banking John Wiley & Sons

Islamic banking is based on principles of Islamic financial laws. Interest is prohibited by Islamic law hence operations of Islamic banking are different from conventional banking although both types of banking fulfill the same needs of customers. In financing customers' needs Islamic banks use either asset based financing or profit and loss sharing modes of financing. Islamic banking was started in last quarter of 20th century to cater the needs of Muslims around the world although it is not limited to Muslims only. It has shown marvelous growth and expansion worldwide. This book is written with a clear focus on learning of Islamic banking by accounting, business and finance students/professionals. Resources available on the subject have so far focused on legal side and very negligible work is available on financial front for a common user. This book is written in financial perspective and author has focused upon financial impacts, generated by application of Islamic financial laws. However a summary of Islamic commercial laws of each chapter has been provided. Author has adopted balance sheet method to inculcate the knowledge; hence, understanding of elementary balance sheet is pre-requisite to get maximum out of this book. A special section in each chapter is developed for concept building through illustrations. To test the concept essay questions, true/false statements, multiple choice questions and sufficient number of exercises in addition to mini cases are included at chapters end. This book is useful for MBA/BBA students as a three credit hour course as well as practitioners of Islamic banking. It is also useful for accounting & finance professionals, trainers in Islamic banking, regulators, investors, corporate managers and general public interested in understanding Islamic finance. For Comments please send message at hanifacma@gmail.com.

In *Frequently Asked Questions in Islamic Finance*, industry expert Brian Kettell answers some of the most frequently asked questions from his many years experience in working and teaching in Islamic finance and banking. From knowledge of the Qu'ran and Sharia'a Law, to new and old Islamic financial concepts, Islamic terms, and Islamic financial instruments and services, this book covers all the key areas that practitioners need to Islamic finance. The book addresses individual questions such as "what is Takaful?" and provide answers with a clear overview of the product or service, and an example, or illustration where appropriate, of how they work in practice. The book also features a question and answer section for readers to test and build their knowledge of the area. Light, entertaining and varied in its approach, *Frequently Asked Questions in Islamic Finance* will prove popular for experienced practitioners and novices alike.

The Islamic Banking and Finance Workbook John Wiley & Sons

The sultanate's economy continues to enjoy the benefits of petroleum wealth, which has provided budget surpluses in most years and served as a backbone for growth. However, planning is well under way for an era in which oil will not be the main economic driver, with the twin goals of diversification and creating an increased number of private sector jobs at the top of the government's current agenda. Indeed, in recent years, the non-OPEC oil exporter's economy has been undergoing a steady transformation, reorienting from oil toward a more diverse set of service and industry-based economic activities. So far, progress has been promising. In 2011 oil and gas accounted for 38.8% of GDP. With the continuation of higher-than-expected energy prices in 2012, the government has increased economic investments accordingly. These

investments, which include infrastructure, social programmes and small-business development, are aimed toward better preparing the country for its post-fossil fuel future.

Your introduction to Islamic accounting Principles of Islamic Accounting is the first and only text that covers the fundamentals of Islamic accounting in English. A comprehensive guide, this groundbreaking reference offers both insight into Islamic accounting best practices and disclosure for Shariah-compliant instruments. Covering everything from basic transaction analysis to the preparation of financial statements, this reference serves as a broad framework around which undergraduate students can build their understanding of the Islamic business environment by offering context and showcasing how Islamic values can influence the disclosure of financial information. Islamic accounting is becoming an increasingly important aspect of the business field as globalization results in a surge in business partnerships and transactions around the world. Today's students need to understand Islamic accounting principles in order to effectively work with professionals who adhere to these standards—and accessing this information via text in English was not possible until this revolutionary reference. Review the basics through an introduction to Islamic accounting Understand the recording process, and how to complete the accounting cycle and adjust accounts as necessary Explore accounting for assets, liabilities, equity, and sukuk, as well as zakat and takaful accounting Discover details regarding Islamic commercial law, accounting for Islamic financial institutions, and Islamic corporate governance and sustainability, and look at auditing from an Islamic perspective Principles of Islamic Accounting is an essential text for first-year university students who are studying Islamic accounting, as well as professional societies and organizations that support the use of Islamic accounting principles, such as The Islamic Finance Professionals Association.

Islamic Finance in Europe CreateSpace

Islamic banking was started in the last quarter of the 20th century to cater the needs of Muslims around the world, although it is not limited to Muslims only. It has shown tremendous growth and expansion worldwide. The global volume of assets under the Islamic financial system has reached the figure of US\$ 2.5 trillion by the end of 2018 (potential size is above US\$ 9.0 trillion), depicting average yearly growth around 16% from 2010-18 [GIFR-2019]. Within eight years, the industry volume of assets is more than double. Islamic finance expands in allied financial sectors, including insurance, capital market operations (equity and Sukuk) and microfinancing in addition to the traditional banking sector. However, dominant share in assets under Islamic financial system is concentrated in the banking sector. According to IFSB (report-2019) share of banking in global Islamic financial services industry [volume 2.19 trillion] is 71.7%, followed by capital market operations with 27% [Sukuk 24.2% & Islamic funds 2.8%] and Islamic insurance (Takaful) 1.3%. Although it was started as merely an alternative option for Halal financing, now it has become a complete financial solutions industry and expanding day by day. Important regions which contribute in global Islamic financial services industry include GCC (42.3%), Asia (28.2%), MENA ex GCC (25.1%) and balance (4.4%) from rest of the world [IFSB-2018]. This book is result of a decade of teaching Islamic banking & finance course to under graduation & Master in Business classes. The book is written with a clear focus on learning the concept of asset-based financing, as practiced by modern Islamic Banking industry, by the accounting, banking, business and finance students & professionals. This book is dedicated to asset-based financing offered by Islamic financial services industry. Asset-based financing contributes to financial stability. Asset-based financing is provided either through trading in assets or by provision of assets on rentals. At the beginning, a summary of Shari'ah rulings about trading is presented. Chapter one is about Murabaha (cost-plus-profit sale) the most widely used financing tool by IFIs world over. Murabaha is a useful tool to meet the requirements of overdraft and short-term financing. The chapter includes the basic rules of Murabaha, necessary steps involved and comparative study with conventional loans. Financial impact of Murabaha is illustrated. Chapter two is about Bai Salam; a form of sale contract whereby IFIs purchase goods for spot payment with deferred delivery. It is a recommended financing product to finance agricultural needs of farmers. Summary of

Shari'ah rulings, steps in execution of contract and illustrated financial impact is presented. Chapter three is about Istisna'a. This mode of financing is designed to transact business through an order to manufacture and/or supply. It is a sales contract with the exception of the existence of subject matter. Istisna'a financing schemes have great potential to finance infrastructure projects, in addition to financing for manufacturing sector. Summary of Shari'ah rulings, steps in execution of contract and illustrated financial impact are elaborated. Chapter four is about Ijarah; a rental contract whereby IFI leases an asset for a specific rent and period to the client. Ijarah is a useful technique to replace conventional lease financing. Summary of Shari'ah rulings, steps in execution of contract and illustrated financial impact are elaborated. A special section has been devoted to study comparative accounting techniques for Ijarah and leasing. In this edition, due attention has been given to present material in reader friendly mode, in addition to thorough review of content, exercises and figures. For all chapters applied illustrations, exercises, essay questions and multiple-choice questions are included to develop understanding and the financial skills of readers.

Adoption of Micro Finance Activity by Islamic Banking Institutions John Wiley & Sons

This book is result of Six years teaching of Islamic finance course to MBA Finance students. This book is written with a clear focus on learning asset based financing (developed under Islamic financial system) by accounting, banking, business and finance students/professionals. This book is written in financial perspective and author has focused upon financial impacts, generated by application of Islamic financial laws. However a summary of Islamic commercial laws of each chapter has been provided. Author has adopted balance sheet method to inculcate the knowledge; hence, understanding of elementary balance sheet is recommended to get maximum out of this book. It includes trading (selling) modes of financing including Murabaha, Salam and Istisna'a; it also includes Ijarah financing. At the start, summary of Shari'a rulings about sales is reported. Chapter one is about Murabaha (cost plus profit) the most widely used financing tool by Islamic Financial Institutions (IFIs) world over and Muajjal (deferred sale). Average share of Murabaha is above 40% in portfolios of IFIs. Murabaha is a very useful tool to replace overdraft and short to medium term financing. This chapter discusses the basic rules of Murabaha, necessary steps involved and comparative study with conventional short term loans including bank overdraft facility. Chapter two is about Bai-Salam; a form of sale contract where by IFIs purchase goods for spot payment with deferred delivery. Practically it is used in financing of agricultural needs of farmers. Chapter three is about Istisna'a. This mode of financing is designed to transect business through an order to manufacture and/or supply. It is a sales contract with the exception of existence of subject matter. This tool of financing is useful for infrastructure projects. Chapter four is about Ijarah; a rental contract whereby IFIs lease an asset for a specific rent and period to the client. Ijarah is very useful in replacement of leasing. Average share of Ijarah is 18% in portfolios of IFIs. Increased number of true/false, multiple choice questions and mini cases are also forming part of updated edition. This book is useful for accounting & finance professionals, trainers in Islamic banking, regulators, investors, corporate managers and general public, interested in understanding Islamic finance. I hope this book will serve its purpose through imparting knowledge of Islamic banking & finance among accounting, business and finance graduates as well as practitioners of Islamic financial system, investors and general public.

An Overview of Islamic Finance Edinburgh University Press

This book is result of five years teaching of Islamic finance course to MBA Finance students. This book is written with a clear focus on learning of Islamic banking & finance by accounting, banking, business and finance students/professionals. Resources available, so far, on the subject have focused on legal side and very negligible work is available on financial front for a common user. This book is written in financial perspective and author has focused upon financial impacts, generated by application of Islamic financial laws. However a summary of Islamic commercial laws of each chapter has been provided. Author has adopted balance sheet method to inculcate the knowledge; hence, understanding of elementary balance sheet is recommended to get maximum out of this book. This book is divided into five parts. Part-1 presents an update on Islamic finance. Part two is about asset backed financing provided by IFIs. It includes trading (selling) modes of financing including Murabaha, Salam and Istisna'a; it also includes Ijarah financing. At the start of part two, summary of Shari'a rulings about sales is reported. Part three of the book deals with profit and loss sharing modes of financing including Musharaka, diminishing Musharaka and Mudaraba. A special section is devoted to discuss the causes of lesser application of Musharaka in operations of IFIs, in addition to Shari'a rulings and financial impact. Chapter seven is about Diminishing Musharaka; a form of gradually declining partnership between an IFI and clients; generally used to finance real estates. Under diminishing Musharaka, I have discussed the basic Shari'a rulings, Islamic house financing, comparative study of conventional and Islamic mortgages and installment calculation under different assumptions for house financing. Chapter eight is about Mudaraba. Under this scheme of financing IFIs provide capital to financially weak but skilful people to do the business and share outcome with IFIs. Part four is about deposits management. Part five of the book presents special topics in Islamic Finance. In this part areas of liquidity management and Islamic insurance are discussed. Under Islamic capital market two dedicated chapters have been included; each for equities and Sukuk. Chapter 12 is dedicated for Islamic insurance. Last chapter has focused on challenges to Islamic finance industry. Third edition is definitely outcome of very encouraging response by academic community to earlier editions. In this edition due attention has been given to present material in reader friendly mode in addition to thorough review of content, exercises and figures. In this edition Islamic capital

market is re-written by including separate chapters on equities and Sukuk. Also a special chapter is devoted to Islamic insurance. Updated figures on global volume of assets, regional shares, equity funds and Sukuk are also part of this edition. Also more examples included in the text to make the concept clear. In appendix guidance for establishment of Islamic bank and appointment of Shari'a advisor as provided by local central bank is included. Increased number of true/false, multiple choice questions and mini cases are also forming part of updated edition. This book is useful for MBA/BBA students as a three credit hour course as well as for banking/finance students and practitioners of Islamic banking & finance. It is also useful for accounting & finance professionals, trainers in Islamic banking, regulators, investors, corporate managers and general public, interested in understanding Islamic finance. I hope this book will serve its purpose through imparting knowledge of Islamic banking & finance among accounting, business and finance graduates as well as practitioners of Islamic financial system, investors and general public.

Deep, insightful analysis of controversial risk management issues in Islamic banking Mapping the Risks And Risk Management Practices In Islamic Banking is a comprehensive analysis of the current state of risk management practices within the Islamic banking industry, with recommendations for policy makers, bankers, and industry stakeholders. Going beyond the academic, this book presents the opinions and perceptions of industry financiers and bankers, alongside primary information and data collected by Islamic finance professionals to deconstruct and analyze the sector's current risk management practices. You'll get up to date on the latest attitudes and trends, and delve into the current issues surrounding risk management in Islamic banks. With a focus on practical applications, this authoritative guide discusses the unique risks facing Islamic banks, from the perspective of a wide range of practitioners. Risk management is one of the biggest, most controversial issues in Islamic finance, yet it remains under-researched. Many uncertainties exist for which the answers are still unclear, yet will play a large role in shaping the industry's future. This book digs deep into current ideas and practices to discover what's being done, what needs to be done, and what needs to stop happening to keep the future of Islamic finance strong. Explore both Islamic and traditional attitudes toward risk Examine current Islamic risk management practices Understand the latest industry issues and trends Consider the diverse range of risks unique to the Islamic banking sector Effective risk management in Islamic banking deserves priority attention. Unless the industry develops its own genuine risk management architecture, it cannot achieve its full potential and the viability needed for a more resilient financial system than the debunked Wall Street model. Mapping the Risks and Risk Management Practices in Islamic Banking provides a deep, authoritative analysis of where the industry is today and where it needs to develop.

Strategic Management in Islamic Finance Oswaal Books and Learning Private Limited

The economic integration of Southeast Asia or ASEAN Economic Community (AEC) offers enormous opportunities for its members to develop and collectively collaborate with other economies. Combining the culture of the region with global business in an expanding digital atmosphere, however, has caused numerous challenges on an international scale. Due to the importance of this economic player in Asia, research on key topics including Islamic economics, Islamic finance, technology, and cultural issues in doing business are essential to understand the ASEAN competitive landscape and its relations with other countries. Economics, Business, and Islamic Finance in ASEAN Economic Community is a pivotal reference source that explores key issues and enhances understanding of business and economics in the ASEAN community and explores the collaboration between this community and Islamic finance and technology. While highlighting topics such as global business, smart manufacturing, and human resource management, this publication explores sustainable development practices as well as the methods of cultural appreciation in economics. This book is ideally designed for deans, heads of department, directors, politicians, policymakers, economists, corporate heads, senior general managers, managing directors, information technology directors and managers, libraries, academicians, researchers, and students.
