potion could be **A humanoid robot**

---

serves as a perfect female companion—until she achieves consciousness—in this wildly different story from a New York Times – bestselling author. Humanoid robots are surely in our future, but their uses are likely to be limited to body guarding, childcare, companionship, and sex. Other chores can better be done by smart non-humanoid machines designed for those specific tasks. But for these limited purposes, the best robots must be so realistic that they are indistinguishable from live people. Elasa is such a robot. You can't tell her nature if she doesn't reveal it. You

can talk with her, embrace her, kiss her, and she is the perfect woman. Until she becomes the first conscious robot. She's no longer satisfied to pretend to be a woman; she wants legal recognition that she is a woman, so that, among other things, she can marry the man she loves. Therein hangs a tale . . .

Kiai! Del Rey

In this first novel of the Incarnations of Immortality, Piers Anthony combines a gripping story of romance and conflicting loyalties with a deeply moving examination of the meaning of life and death. This is a novel that will long linger in the reader's mind. Shooting Death was a mistake, as Zane soon discovered. For the man who killed the Incarnation of Death was immediately forced to assume the vacant position!

---

Thereafter, he must speed over the world, riding his pale horse, and ending the lives of others. Zane was forced to accept his unwelcome task, despite the rules that seemed woefully unfair. But then he found himself being drawn into an evil plot of Satan. Already the prince of Evil was forging a trap in which Zane must act to destroy Luna, the woman he loved. He could see only one possible way to defeat the Father of Lies. It was unthinkable—but he had no other solution!

#### Key to Havoc Bucket Fillers

Anthony's Geodysey Series is the story of humanity as seen through the eyes of a handful of courageous men and women reborn again and again in some of the most turbulent stages of history. The arts set humanity apart from all other species on earth, and this fourth book in the saga explores the special talents that have inspired and motivated man since the earliest days of existence.

*Two to the Fifth* St. Martin's Press

Keeping track of prolific authors who write fiction series was quite challenging for even the most ardent fan until *To Be*

*Continued* debuted in 1995.

Now, readers will be happy that the soon-to-be-released second edition has added 1,600 new books and 400 new series. *To Be*

*Continued, Second Edition*, maintains the first volume's

successful formula that featured concise A-to-Z entries packed with useful information, including titles, publishers, publication

dates, genre categories, annotations, and subject

terms. Among the genre categories that can be found

in *To Be Continued* are romance, science fiction,

crime novel, horror,

adventure, fantasy, humor,

western, war, Christian

fiction, and others.

The kids from *The* revealers are back, entering eighth grade at Parkland Middle school, where they have to cope with the super-popular kids and the ugly truth about online bullying.

Sequels Harvard University Press

“Series fans will find themselves right at home” as a computer game draws two players into the illusion-, pun-, and dragon-filled land of Xanth (Kirkus Reviews).

Sixteen-year-old Dug has yet to be impressed by a computer game, but that’s before he gets hooked by *Companions of Xanth*—and the beguilingly beautiful princess-serpent he’s chosen to guide him. Nada Naga has her work cut out for her keeping Dug’s eyes on the magical prize . . . and off of her human form. Kim is no stranger to Xanth, which is why she chooses her favorite

companion, Jenny Elf, to accompany her through its marvels—and dangers. Though Kim’s hyper-enthusiasm is infectious, she doesn’t really believe that Xanth is real, and it’s up to Jenny to prove it.

What the two players don’t know is that there’s more at stake than winning; the very existence of Xanth hangs in the balance. Demons may run the game, but there are voids to avoid, loan sharks to outswim, and Com Pewter—the most evil machine of all—to outwit. Not to mention that a companion may be just as willing to sabotage Dug and Kim as help them succeed . . .

“The legions of Xanth readers can rest assured that [*Demons Don’t Dream*] contains plenty of the punningly named animals, vegetables, people and things (such as the Ice Queen Clone and the Censor-Ship) that have become the series’ *raison d’etre*.”

—Publishers Weekly

Blue Adept Open Road Media  
Karate, kung-fu, aikido—Jason Striker was a master of them

---

all. His entire body was a finely honed weapon, capable of destroying even the most skilled antagonist. But Striker was a man of peace; his school of martial arts was dedicated to defense, not aggression. Then came the tournament, a fight-to-the-finish matching of the top representatives of the world's leading martial arts. There would be no rules, no fouls called, no techniques forbidden, no repercussions if men should die. No such meeting could ever occur in the United States, for here there are laws against manslaughter. But in the far reaches of his estate in Nicaragua, Vincente Pedro was the law . . .

*Luck of the Draw* Del Rey

Piers Anthony takes us back to Xanth in this luckiest volume yet!

Fill a Bucket Turtleback Books

"A readable and up-to-date introduction to a most fascinating culture" from a

world-renowned Sumerian scholar (American Journal of Archaeology). The Sumerians, the pragmatic and gifted people who preceded the Semites in the land first known as Sumer and later as Babylonia, created what was probably the first high civilization in the history of man, spanning the fifth to the second millenniums B.C. This book is an unparalleled compendium of what is known about them. Professor Kramer communicates his enthusiasm for his subject as he outlines the history of the Sumerian civilization and describes their cities, religion, literature, education, scientific achievements, social structure, and psychology. Finally, he considers the legacy of Sumer to the ancient and modern world. "An uncontested authority

---

on the civilization of Sumer, Professor Kramer writes with grace and urbanity.”

—Library Journal

### **Hugo's Runaway Legs**

Open Road Media

“Puns and playfulness reign supreme” as a demoness learns that big birds of a feather don’t flock together in the New York Times–bestselling Xanth series (The Toronto Star). Seeking a solution to a perplexing personal problem, the delectable Demoness Metria asks for help from the wise Magician Humfrey. But before he will help her, she must perform a perilous mission: Rove the length and breadth of Xanth in search of a suitable jury for the trial of Roxanne Roc, a notably noble and virtuous bird charged with a most improbable offense. Exciting, exhilarating, and brimming with hilarious high

jinks, Roc and a Hard Place is Xanth at its most enchanting. “[A] lighthearted series . . . many outlandish characters, adventures, jokes and plays on words.” —Publishers Weekly

*Mistress of Death* Open Road Media

On the technological, decadent world of Proton, someone was trying to destroy Stile, serf and master Gamesman. His only escape lay through a mysterious “curtain” revealed by a loving robot. Beyond the curtain lay Phaze—a world totally ruled by magic. There, his first encounter was with an amulet that turned into a demon determined to choke him to death. And there, he soon learned, his alternate self had already been murdered by sorcery, and he was due to be the next victim. “Know thyself!” the

---

infallible Oracle told him. But first he must save himself as he shuttled between worlds. On Proton, his fate depended on winning the great Games. On Phaze, he could survive only by mastering magic. And if he used any magic at all, the werewolf and the unicorn who were his only friends were determined to kill him at once!

Martin's Press

1,000 years ago Earth sent out a ship that colonized the planet Charm. But the population of Charm is now far removed from their ancient ancestors. Technology has been lost over the years but the people have something better-Magic! Charm is a world covered by volcanoes, each erupting a different color of magic.

Everything within a particular Chroma becomes that color. Plants, animals, insects, and even humans all become one color and can perform that color of magic. Traveling is dangerous because a person leaving their native Chroma home can no longer perform their color magic. Havoc is a barbarian living in a nonChroma village, where no one has magic. As a boy, he rescued a dragon that rewarded him with special magic; to sense pending danger. His gift becomes more valuable than he can imagine as he is suddenly drafted and forced to become the new king of the planet. He must perform his duties or be executed for treason. To make matters worse,

---

the assassin who killed therest of the human former king is now after Havoc!

**To Be Continued**

Macmillan

Key to Survival is the fifth and concluding quarter-million word sexy Chromagic fantasy novel. It features King Havoc, Queen Gale, and their four Glamor children as they tackle the invasion of the machines. The machines have destroyed one third of the galaxy and are working on the rest. They have overwhelming power and ruthless competence. But one thing makes them pause: they want to recruit Havoc's daughter Voila to their cause, as she is the strongest of all Glamors with a talent they need. If she joins them, they will spare the

culture--and destroy the rest of the galaxy much faster. Voila must decide whether to betray all the other living cultures, to save her own.

*On a Pale Horse Open Road Media*

Key to Chroma The Second Novel in the Epic Chromagic Fantasy Series Settled by a human expedition over 1,000 years ago, the planet Charm is both magical and dangerous. Volcanoes, scattered throughout the vast landscape, erupt with a fantastic array of colors creating Chroma zones and permeating everything and everyone with magic. The barbarian Havoc became king of this strange land and immediately found himself a target to unknown powerful assassins. Having finally secured a firm grip

---

on governing the planet with the help of the God-like Glamors, Havoc and his companions must now set off in search of seven mysterious ikons to attempt to learn the secret of the Changelings . a secret that could answer all of Havoc's questions, or lead him to his doom.

Hope of Earth Princeton University Press

A villain threatens the future of Xanth by erasing the past—and only a teenage dragon-girl can stop him in this fantasy adventure. He calls himself The Dastard—a name he's more than earned the right to claim. Having sold his soul for the ability to erase events, he now holds the future of Xanth in his dastardly grip. And the only one capable of foiling his evil plan is a most unlikely hero. The daughter of Draco the Dragon and a human woman, Becka has never been sure if she belongs in the magical world of Xanth. Seeking her

true purpose in life from the Good Magician Humphrey, she discovers that she not only belongs in Xanth—but that all of Xanth depends on her!

**A Spell for Chameleon (The Parallel Edition... Simplified)** Mundania Press

A gargoyle finds himself caught between a rock and a hard place in this Xanth adventure that “should delight Anthony’s many fans” (Publishers Weekly). As a gargoyle, Gary Gar has one job in Xanth: to protect the Swan Knee River from the pollution flowing in from Mundania. But more dirt plus less rain will crack any gargoyle’s stony composure. So Gary does what any good Xanthian would do: He seeks the help of the Good Magician. But

---

payment for his service is high. Gary must find a philter for the water, while taking on human form to tutor a wild human child, with help from the surly Sorceress Iris, and—even though time is of the essence—taking Hiatus, a known troublemaker, along for the ride. It won't be easy, especially when they're all transported back to the dawn of time. And if they can't figure out what's going on in the past, there may be no future for Xanth—come hell or high water . . .

“Ephemeral amusement for pun-struck Xanthonauts.” —Kirkus Reviews

**Chaos Mode** Larrikin House  
Accompanied by a king from another planet, a telepathic horse, and a strange, tentacled alien, Colene is heading home to Earth to

reunite with her estranged parents and to put aside her troubled past once and for all. Reissue.

*A Centenary History of the Indian National Congress, 1885-1985: 1919-1935* Del Rey

Includes audio versions, and annual title-author index.

*Zombie Lover* University of Chicago Press

The most sweeping account of how neoliberalism came to dominate American politics for nearly a half century before crashing against the forces of Trumpism on the right and a new progressivism on the left. The epochal shift toward neoliberalism--a web of related policies that, broadly speaking, reduced the footprint of

---

government in society and reassigned economic power to private market forces--that began in the United States and Great Britain in the late 1970s fundamentally changed the world. Today, the word "neoliberal" is often used to condemn a broad swath of policies, from prizing free market principles over people to advancing privatization programs in developing nations around the world. To be sure, neoliberalism has contributed to a number of alarming trends, not least of which has been a massive growth in income inequality. Yet as the eminent historian Gary Gerstle argues in *The Rise and Fall of the Neoliberal Order*, these indictments fail to reckon

with the full contours of what neoliberalism was and why its worldview had such persuasive hold on both the right and the left for three decades. As he shows, the neoliberal order that emerged in America in the 1970s fused ideas of deregulation with personal freedoms, open borders with cosmopolitanism, and globalization with the promise of increased prosperity for all. Along with tracing how this worldview emerged in America and grew to dominate the world, Gerstle explores the previously unrecognized extent to which its triumph was facilitated by the collapse of the Soviet Union and its communist allies. He is also the first to chart the story of the

---

neoliberal order's fall, originating in the failed reconstruction of Iraq and Great Recession of the Bush years and culminating in the rise of Trump and a reinvigorated Bernie Sanders-led American left in the 2010s. An indispensable and sweeping re-interpretation of the last fifty years, this book illuminates how the ideology of neoliberalism became so infused in the daily life of an era, while probing what remains of that ideology and its political programs as America enters an uncertain future.
