This workbook is not for individual self-study, rather it is the workbook used to follow along with the new class at al-Masjid al-Awwal (live in Pittsburgh or online from anywhere), beginning in the first week of 1440, in shaa' Allah. Classes are taught live from this workbook, broadcast worldwide. No registration is required. Simply get the workbook and follow along from wherever you are. Also, the recorded lessons are available on al-Masjid al-Awwal's Spreaker Channel. This workbook contains all 131 narrations of Kitaab al-Jaami' from Buloogh al-Maraam, along with an English translation of each one. It has been designed to provide structured guidance for note-taking. With each hadeeth, as a routine, we learn about the Companion(s) who narrated it and the imam(s) who collected it. Important points, based primarily on the explanation of Shaykh Saalih al-Fowzaan, follow in numbered lists, with adequate space for notes. It is hoped that students who may

normally struggle with note-taking may learn how to identify the most important points of a class and improve this essential skill. In this study of 131 hadeeth narrations, we will learn and/or be reminded about -in shaa' Allah- the importance of refining one's character, some good manners to work on, some bad manners to avoid, and some important personal supplications to be used throughout our day and night. In Section One, we study 16 narrations about essential everyday manners in basic interactions. Then, 14 narrations zoom in on some of the most important manners connected to kindness and keeping ties in Section Two. In Section Three, 11 narrations inspire us to be more pious, more focused on the Hereafter, and less materialistic, in shaa' Allah. Section Four includes 40 narrations warning us from various manifestations of bad character, while Section Five includes 19 more narrations about more ways to apply good character. Finally, in the last section, we study 31 narrations about remembrance and supplication. While memorizing all of these narrations is indeed quite helpful, the last section, most specifically, should be given special

attention. Few creative movements have been more influential than the Bauhaus, under the

leadership of Walter Gropius. The art of the theater commanded special attention. The text in this volume is a loose collection of essays by Oskar Schlemmer, Laszlo Moholy-Nagy, and Farkas Molnár (who in an illustrated essay shares his vision of a total theatre space), with an introduction by Bauhaus leader Walter Gropius. Originally published in German in 1924, *Die Bühne im Bauhaus* was translated by A. S. Wensinger and published by Wesleyan in 1961. It was prepared with the full cooperation of Walter Gropius and his introduction was written specially for this edition. From Bauhaus experiments there emerged a new aesthetic of stage design and presentation, a new concept of "total theater." Its principles and practices, revolutionary in their time and far in advance of all but the most experimental stagecraft today, were largely the work of Oskar Schlemmer, Laszlo Moholy-Nagy, and their students. Profusely illustrated and startling in its typography (the work of Moholy-Nagy), the 1924 volume quickly became a collector's item and is now virtually unobtainable. Those interested in the stage, the modern visual arts, or in the bold steps of the men of genius who

---

broadened the horizons of aesthetic experience will appreciate that this translation is available again.
