economic

developments in

Suriname during

1994–96. In 1995, there was a major turnaround in Suriname's economic and financial situation following the expansionary fiscal and monetary policies pursued in the first half of the 1990s and the political and economic disruptions of the 1980s. The marked improvement was owing to the restoration of financial discipline, a strengthening of international bauxite prices, and the unification and subsequent stabilization of the exchange rate. The inflation fell further to less than 1 percent in 1996.

Porting heads is an

art and science. It

takes a craftsman's

touch to shape the surfaces of the head for the optimal flow characteristics and the best performance.

Porting demands the right tools, skills, and application of knowledge. Few other engine

builders have the same level of

knowledge and skill porting engine heads

as David Vizard. All the aspects of

porting stock as well as aftermarket heads

in aluminum and cast-iron

constructions are covered. Vizard

goes into great depth and detail on

porting aftermarket heads. Starting with

the basic techniques up to more

techniques, you are shown how to port iron and aluminum heads as well as benefits of hand and CNC porting. You are also shown how to build a high-quality flow bench at home so you can test your work and obtain professional results. Vizard shows how to optimize flow paths through the heads, past the valves, and into the combustion chamber. The book covers blending the bowls, a basic porting procedure, and also covers pocket porting, porting the intake runners, and many advanced procedures. These advanced procedures include

unshrouding valves, porting a shortside turn from the floor of the port down toward the valve seat, and developing the ideal port area and angle. All of these changes combine to produce optimal flow velocity through the engine for maximum power. **A Treaty with the Aborigines?** International Monetary Fund "60 Years of Holden" builds on the success of its predecessors (45 and 50 Years of Holden), bringing together vast amounts of technical information and specifications on the 100 model series that Holden has produced since it began manufacturing.

Holden Improved Performance CarTech Inc Around the world, parties of the left and center-left have been struggling, losing ground to right-wing parties and various forms of reactionary populism. This book brings together a range of leading academics and experts on social democratic politics and policy to offer an international, comparative view of the changing

political landscape. Using case studies from the United Kingdom, Germany, Spain, France, Australia and New Zealand contributors argue that despite different local and specific contexts, the mainstream center-left is beset by a range of common challenges. Analysis focuses on institutional and structural factors, the role of key individuals, and the atrophy of progressive ideas as interconnected reasons for the current struggles of the center-left.

A girl who had lost everything and was driven from her home, has to go on a journey to start her life over, but ends up finding it instead. Juliana lives in a small village on a family farm on Lord Samuel's fief. In her short seventeen years of life, it seems that Juliana has lived four separate lifetimes. She has endured sickness, harassment and experienced loss. She found love... or so she thought. Then after a

breathtaking betrayal, Juliana found herself without a home, family or dignity. After being driven from her home, Juliana starts a journey to find herself and start her life over in a new town with only a makeshift bag and a note. She must now face self doubt, night terrors and her deepest fears to begin her life in this strange place by herself.

This book takes a completely new look at the Anthroposophical Soul Calendar. It is

---

about the deeper meaning of the fifty-two weekly verses, which has remained essentially unexplored in the last hundred years since the first edition by Rudolf Steiner. A dense veil of Isis was spread over them, of which is well known that no mortal person can lift it. Only the immortal, psycho-spiritual human being, who knows himself at home in the extrasensory, higher worlds, is capable of doing this. Only to him the weekly verses reveal themselves as a travel guide through these worlds and lift him up to ever higher spiritual-cosmic realms until he reaches the experience of God, from where he gradually descends again into a new life on Earth, enriched in

spirit and fertilized in his soul. If the reader embarks on this journey, the spiritual archetype of the Soul Calendar is ultimately unveiled to him and he achieves an extended understanding of Man and Christ. By many quotations from Rudolf Steiner's lectures and books, the author virtually lets Steiners himself elucidate the breathtaking depths of his mysterious weekly verses.

**A Bibliography and  
Reader's Guide to  
the First Editions of

How difficult it can  
be to forgive others  
or to accept  
forgiveness or to  
accept that someone  
who had offended the  
community has been  
reconciled and  
accepted back into it.  
For two millennia  
Christians have  
pondered the scope of  
the forgiveness Jesus  
taught and lived.  
They have celebrated  
practices and rites  
that have enabled the  
faithful to forgive, to  
be forgiven, and to  
accept that God  
brings reconciliation  
even when we find it  
almost impossible to  
forgive. This book  
traces that history to

the present, offering a  
sense not only of how  
the rites of  
reconciliation matter  
to Catholics but how  
our struggles with  
forgiveness are a real  
contribution to  
reconciliation in our  
world.
