Now a major motion picture "The Front Runner" starring Hugh Jackman An NPR Best Book of the Year In May 1987, Colorado Senator Gary Hart—a dashing, reform-minded Democrat—seemed a lock for the party's presidential nomination and led George H. W. Bush by double digits in the polls. Then, in one tumultuous week, rumors of marital infidelity and a newspaper's stakeout of Hart's home resulted in a media frenzy the likes of which had never been seen before. Through the spellbindingly reported story of the Senator's fall from grace, Matt Bai, Yahoo News columnist and former chief political correspondent for The New York Times Magazine, shows the Hart affair to be far more than one man's tragedy: rather, it marked a crucial turning point in the ethos of political media, and the new norms of life in the public eye. *All the Truth Is Out* is a tour de force portrait of the American way of politics at the highest level, one that changes our understanding of how we elect our presidents and how the bedrock of American values has shifted under our feet.

Guess what -- Gary Paulsen was being kind to Brian. In *Guts*, Gary tells the real stories behind the Brian books, the stories of the adventures that inspired him to write Brian Robeson's story: working as an emergency volunteer; the death that inspired the pilot's death in *Hatchet*; plane crashes he has seen and near-misses of his own. He describes how he made his own bows and arrows, and takes readers on his first hunting trips, showing the wonder and solace of nature along with his hilarious mishaps and mistakes. He shares special memories, such as the night he attracted every mosquito in the county, or how he met the moose with a sense of humor, and the moose who made it personal. There's a handy chapter on "Eating Eyeballs and Guts or Starving: The Fine Art of Wilderness Nutrition." Recipes included. Readers may wonder how Gary Paulsen survived to write all of his books -- well, it took guts.

This work focuses on the baseball movie genre in the years following World War II, beginning with the 1948 biopic *The Babe Ruth Story* and ending with the 1962 Mickey Mantle-Roger Maris vehicle *Safe at Home!*, when the consensus was that conflict should be limited in American society by emphasizing economic growth and a strong stand against Communism. This study of selected films indicates, however, that this strategy was not entirely effective; while offering a certain amount of nostalgia, these films could not provide shelter from the storm gathering in postwar America which challenged conventional ideas of race, gender and class and broke in the 1960s.
