One glimpse of the creatures that stalk the world will drive a person to unspeakable violence. There remains no explanation. No solution. All Malorie can do is survive—and impart her fierce will to do so on her children. Don ’ t get lazy, she tells them. Don ’ t take off your blindfold. **AND DON ’ T LOOK.** But then comes what feels like impossible news. And with it, the first time Malorie has allowed herself to hope. Someone very dear to her, someone she believed dead, may be alive. Malorie has already lost so much: her sister, a house full of people who meant everything, and any chance at an ordinary life. But getting her life back means returning to a world full of unknowable horrors—and risking the lives of her children again. Because the creatures are not the only thing Malorie fears: There are the people who claim to have caught and experimented on the creatures. Murmurings of monstrous inventions and dangerous new ideas. And rumors that the creatures themselves have changed into something even more frightening.
