Matter Webquest - Mrs. Craft Science 6

What are the states of matter? How is glass shaped? You will visit the website below and then watch the video titled "States of Matter" to learn more about this topic. 1. Print off the Matter Webquest worksheet. 2. Next, go to this website and answer the corresponding questions on the worksheet: http://www.chem4kids.com/files/matter_intro.html. 3. When you are finished with that site, then watch the video below and answer the questions about it.

States Of Matter

Webquest Answer Key | Answers Fanatic

There are three states of matter: solid, liquid, and gas. Solids. Solid matter has its own shape. This is because the tiny molecules that make up solids are very close together, and they do not move very much. Solid matter can be big, small, round, square, or any shape you can imagine. Ice, a cup, apples, paper, and windows are all solids.
