Bible of the Gun is a collection of stories, from the novel of the title, to the novella of Bathory and the State, to the long shorts of The Destructive Urge and The Rose of John Hamlet. The stories have several things in common. The first of these is brevity; none of the stories have anything that is inessential, not a single line that the author did not enjoy writing that was not a curiosity or a puzzle to be solved. The second is surrealism. All the stories are surrealist in one sense or another, all steal something from dreams, and all try to unlock something of the animal from the Id. The author aligns himself with Bizarro, because the work clearly is, however, it is also seriously surrealist. Thirdly, violence in all the authors work is never treated morally, but let loose, you dont have to read the stories from the point of view of a good person being shown bad things, which fascinate, and yet you are never allowed to be a part of, but just as if you were in a dream or were a child, you have no moral compass and are lead into violence without condemnation, are told to identify with it, even when its source is apparently evil. To go back to surrealism before we discuss the actual stories. I, the author, am a surrealist anarchist, and a surrealist creator, for three reasons. One is a fascination with dreams, their strangeness and wonder, where they come from, their unrestrained adventures. Two is a political interest, from the point of view that the super ego, the restraints of the opinions of society, therefore, the opinions of the state through all aspects of media and coercion, is a cowardly internalised source that restricts our freedom and makes everyone slaves. Thirdly, is an attempt to unpeel this onion even further, let out the Id, the creativity, the desires, without the restraints of ego and super ego, to see the core of who we are, even if this is bad, I want to find good, but I do not want to find it at the bottom of being afraid because I do not want to consent to the pressures of every one and thing I despise, even if I am instead lead to evil that I despise more, and yet I find as a child, or in a dream, I am rarely lead to evil through lack of social inhibitions, in my work, I often am., but then, I have had a very violent life. Most of these stories however are rather more restrained than the earlier works of Unrequited Zombie and Urban Book of the Dead, except for The Destructive Urge, also the most surreal here and the most recent. Bathory and the State is from an earlier period, and a little primitive, which only means it is eighteen months old. Bible of the Gun is a story about a man, who after strange events of a dream like and schizophrenic nature, goes to see a female psychiatrist. I was lying on the leather couch, so much like a dental chair, the smell of leather had a clinical effect on the memories she extracted, as the sense of smell alerted me to smells from the past. Light fell on the couches black leather in shiny checks from the window light as the warm rays that read my mind with their heat signatures fell on us, they made the plant on the coffee table, with its lush green leaves, burble to me happily

in a language I could not understand. Like pulling teeth she grasped each memory, examined it through her glasses leaning forward, she tapped each one with her pen looking for rottenness, tore it painfully from its protective flesh. Her mobile phone sat on the coffee table. Dismantled at my request, slim, orange and black, a Sonny Ericsson 880i, it had its spying guts removed. That is; its battery lay at its side so that the secret services or who ever they were could not pick up through its microphone, my conversation with my psychiatrist. My psychiatrist sat in a swiveling chair; I looked down at her red shoes, the sharp heels pointing from one side and then the other as she turned the chair from side to side with her long legs, occasionally

WPAs in Transition shares a wide variety of professional and personal perspectives about the costs, benefits, struggles, and triumphs experienced by writing program administrators making transitions into and out of leadership positions. Contributors to the volume come from various positions, as writing center directors, assistant writing program administrators, and WPAs; mixed settings, including community colleges, small liberal arts colleges, and research institutions; and a range of career stages, from early to retiring. They recount insightful anecdotes and provide a scholarly context in which WPAs can share experiences related to this long-ignored aspect of their work. During such transitions, WPAs and other leaders who function as both administrators and faculty face the professional and personal challenges of redefining who they are, the work they do, and with whom they collaborate. WPAs in Transition creates a grounded and nuanced experiential understanding of what it means to navigate changing roles, advancing the dialogue around WPAs' and other administrators' identities, career paths, work-life balance, and location, and is a meaningful addition to the broader literature on administration and leadership. Maybe you are always in conflicts with your friends, finding that they oftentimes end up avoiding you entirely. Maybe your romantic relationships are always cut short because you feel like you are entirely misunderstood, no matter how often you try to better yourself. Does this sound familiar? If you find that the social situations that you end up in are like pulling teeth, it may be that you lack emotional intelligence. Now, this is not something that people generally want to hear, but keep reading--when you lack emotional intelligence, you struggle to relate to other people. You find that you cannot directly empathize with others, or you may feel like you struggle to make good, solid emotional connections. You struggle with your own emotional abilities as well--you may find that controlling your temper or behaving in a way that is not impulsive becomes an impossibility for you. When this happens, the unfortunate end result is that your relationships suffer. When your relationships suffer, you feel worse about yourself, and the entire situation repeats, over and over and over. Eventually, you find that your own emotional state is just too much. You may withdraw or choose to believe the emotions themselves are the problem, not you. However, that could not be further from the truth. Your real problem lies in the lack of emotional intelligence. Emotional intelligence is your ability to relate to other people. It is the ability to really understand what other people think and feel. It is your ability to recognize that, at the end of the day, social skills and relationships matter. And ultimately, your emotional intelligence actually begins to matter more than your IQ. In fact, in many contexts, people will choose someone emotionally intelligent over having an IQ. It matters to people, and because of that, you should be eager to develop your own emotional intelligence. This book is here to help you with exactly that. Through guiding you through the fundamentals of emotional intelligence, you will learn how to better relate to others. The information in this book all boils down to the key elements of meeting and attracting men, the courtship process, and setting yourself up for a successful long-term relationship with a man. Psychologists, social scientists, writers, thinkers, etc. tend to focus on the "later stages" of love when people have found each other or are already married. Maybe it's because they're in a lab all day, but I don't think they understand that relationships don't just happen and come together in a test tube. There's a whole universe of stuff that happens before two people arrive at a committed relationship, but these earlier stages and processes don't get much attention. For lots of women, just finding a great guy can be tough enough. First she has to find him and meet him. Then she has to attract him and be attracted to him. Then she has to get to know him and make sure he isn't some player or whatever. Then she has to figure out how to keep the chemistry alive and stay connected and intimate. (This last one can be like pulling teeth with some men!). It's an incredible process that can be overwhelming for lots of women. So why does it have to be so hard with men? Why do ALL of these things have to fall into place with men before any of the deeper feelings and longer term commitments come into play?... Well, that's what we're here to talk about.

Written by a Sydney native, English, The Aussie Way: A Fun Guide to Australia's Colourful Phrases, Words, and Expressions offers an amusing way for English or non-English speakers around the world to learn the colloquial phrases for which Australia is famous. This user-friendly reference provides words/phrases and meanings/synonyms by using an example sentence. Says the author, "For seven years I housed international students who were attending English language schools in Sydney, and I realised that although they had a good grasp of formal grammar, they struggled to understand not only colloquial English, but many of the commonly used phrasal verbs, which could not be found in a standard English/Spanish, French, etc., dictionary. It was then that I decided to start writing some of them down for future reference and it grew from there."

"What's the condition?" "You have to go on a date with me." "You realize that you're blackmailing me into a date, don't you? That's desperate, even for you," I say in disgust. "Don't you have any shame?" "Yes, I realize that. And no, I do not. The Greeks wouldn't have won the Trojan war if they had felt too ashamed to hide in a wooden horse," he quotes cheerfully. "So you're comparing going on a date with me to winning a war?" "Hm... Yeah, I guess I am," he answers, completely unfazed. "Take it or leave it, it's up to you." I take a deep breath and try to think about this rationally. One date in return for a chance at winning the Championship.
