**Popular Science** Upkar Prakashan

"George Black rediscovers the history and lore of one of the planet's most magnificent landscapes. Read *Empire of Shadows*, and you'll never think of our first—in many ways our greatest—national park in the same way again." —Hampton Sides, author of *Blood and Thunder*  
*Empire of Shadows* is the epic story of the conquest of Yellowstone, a landscape uninhabited, inaccessible and shrouded in myth in the aftermath of the Civil War. In a radical reinterpretation of the nineteenth century West, George Black casts Yellowstone's creation as the culmination of three interwoven strands of history - the passion for exploration, the violence of the Indian Wars and the "civilizing" of the frontier - and charts its course through the lives of those who sought to lay bare its mysteries: Lt. Gustavus Cheyney Doane, a gifted but tormented cavalryman known as "the man who invented Wonderland"; the ambitious former vigilante leader Nathaniel Langford; scientist Ferdinand Hayden, who brought photographer William Henry Jackson and painter Thomas Moran to Yellowstone; and Gen. Phil Sheridan, Civil War hero and architect of the Indian Wars, who finally succeeded in having the new National Park placed under the protection of the US Cavalry. *George Black's Empire of Shadows* is a groundbreaking historical account of the origins of America's majestic national landmark.

Popular Mechanics St. Martin's Press

Just as Americans least disadvantaged by racism are most likely to call their country post racial, Indians who have benefited from upper-caste affiliation rush to declare their country a post caste meritocracy. Ajantha Subramanian challenges this belief, showing how the ideal of meritocracy serves the reproduction of inequality in Indian education.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Politics, Literature, Science and Art

It is a fictional biography based on the real incidents in the life of Tuntun, from a remote village in Bihar where IAS was well-known, but IIT was just another ITI. The book narrates the adventure-filled journey of Tuntun through IIT-IFS-IRS-Advocacy in an inimitable style that parallels the “3 Idiots” movie. It describes how the dowry market of Bihar popularized otherwise unknown IIT in Tuntun’s village within no time. The economic need-based pursuit of education of Tuntun through our education system is full of fun and at the same time highly motivating.
