Acción Cultural Española's fourth edition of the AC/E Digital Culture Annual Report follows an editorial policy of familiarising professionals of the culture sector with the main digital trends they need to be aware of over the coming years. Since 2015, a committee has been advising us on the choice of subjects and authors for the first part of the report. This year, a group of experts analyse issues such as content curation as a means of tackling digital overload,

neuroscience applied to technology, the latest advances in artificial intelligence, the Internet of Things and Big Data applied to culture, and the use of digital technology in music. Each year's edition also includes a field study: the Focus, which reports on cases of good practice in digital technology in a specific discipline. The first edition examined the impact of digital in the world of the performing arts; the second focused on museums; and the third on the use of digital devices at fifty Spanish and international culture festivals. This fourth edition surveys in depth the use of digital technology in the conservation, analysis and dissemination of our cultural heritage. This sector is rapidly growing, leading to a radical change in methodologies and formats which the author, David Ruiz Torres, analyses exhaustively.

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the

kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.
