Please share other questions you encounter in IWCF to help future participants.

Q1. What is inflow test?

Correct Answer according to me is: ( A test in which the hydrostatic pressure is reduced such that the net

differential pressure direction is from the formation into the wellbores)

Ans) For IWCF answer should be permeability because he is asking about initial pressure stabilization (when well is just shut in) afterwards it would be due to gas migration. So if it shows up in exam mark permeability as correct answer as in IWCF answer key they use permeability as correct answer.
