If you are looking for a cheaper alternative to a V8 swap in your Miata you may want to consider a Honda J-series V6. Mini Tec sells a JV6 swap kit for \$3,500 that will allow you to swap any 1999-2007 Honda J engine to any NA or NB Miata (1990-2005). Although the 3.2 L from a 2003 Acura CL Type-S with a manual transmission is probably the best option since you can use the stock ECU.

Forza Horizon 4/Engine Swap | Forza Wiki | Fandom

Honda's first production V6 was the C series; it was produced in displacements from 2.0 to 3.5 liters. The C engine was produced in various forms for over 20 years (1985–2005), having first been used in the KA series Legend model, and its British sister car the Rover 800-series (and Sterling).. All C engines share in common a 90-degree V from bank to bank and common cylinder block bore centers.
