Predators of Kilimanjaro 01 Routledge

The main objective of the second edition of the Routledge Handbook of Critical Criminology is twofold: (1) to provide original chapters that cover contemporary critical criminological theoretical offerings generated over the past five years and (2) to provide chapters on important new substantive topics that are currently being studied and theorized by progressive criminologists. Special attention is devoted to new theoretical directions in the field, such as southern criminology, queer criminology, and green criminology. The diverse chapters cover not only cutting-edge theories, but also the variety of research methods used by leading scholars in the field and the rich data generated by their rigorous empirical work. In addition, some of the chapters suggest innovative and realistic short- and long-term policy proposals that are typically ignored by mainstream criminology. These progressive strategies address some of the most pressing social problems facing contemporary society today, which generate much pain and suffering for socially and economically disenfranchised people. The new edition of the Handbook is a major work in redefining areas within the context of international multidisciplinary critical research, and in highlighting emerging areas, such as human trafficking, Internet pornography and image-based sexual abuse. It is specifically designed to be a comprehensive resource for undergraduate and postgraduate students, researchers and policymakers.

Rural crime is a fast growing area of interest among scholars in criminology. From studies of agricultural crime in Australia, to violence against women in Appalachia America, to poaching in Uganda, to land theft in Brazil -- the criminology community has come to recognize that crime manifests itself in rural localities in ways that both conform to and challenge conventional theory and research. For the first time, Rural Criminology brings together contemporary research and conceptual considerations to synthesize rural crime studies from a critical perspective. This book dispels four rural crime myths, challenging conventional criminological theories about crime in general. It also examines both the historical development of rural crime scholarship, recent research and conceptual developments. The third chapter recreates the critical in the rural criminology literature through discussions of three important topics: community characteristics and rural crime, drug use, production and trafficking in the rural context, and agricultural crime. Never before has rural crime been examined comprehensively, using any kind of theoretical approach, whether critical or otherwise. Rural Criminology does both, pulling together in one short volume the diverse array of empirical research under the theoretical umbrella of a critical perspective. This book will be of interest to those studying or researching in the fields of rural crime, critical criminology and sociology.

Perverts of the Unknown Eros Comics

This book chronicles key contemporary developments in the social scientific study of various types of male-to-female abuse in rural places and suggests new directions in research, theory, and policy. The main objective of this book is not to simply provide a dry recitation of the extant literature on the abuse of rural women in private places. To be sure, this material is covered, but rural women's experiences of crimes of the powerful like genocidal rape and corporate violence against female employees are also examined. Written by a celebrated expert on the subject, this book considers woman abuse in a broad context, covering forms of violence such as physical and sexual assault, coercive control genocidal rape, abortion bans, forced pregnancy, and corporate forms of violence. It offers a broad research agenda, that examines the multidimensional nature of violence against rural women. Drawing on decades of work in the shelter movement, with activist organizations, and doing government research, DeKeseredy punctuates the book with stories and voices of perpetrators and survivors of abuse. Additionally, what makes this book unique is that it focuses on the plight of rural women around the world and it introduces a modified version of Liz Kelly's original continuum of sexual violence. An accessible and compelling read, this book will appeal to students and scholars of criminology, sociology, women's studies, cultural studies, policing, geography and all those interested in learning about the abuse women face in rural areas. Walter S. DeKeseredy is Anna Deane Carlson Endowed Chair of Social Sciences, Director of the Research Center on Violence, and Professor of Sociology at West Virginia University. He has published 26 books, over 100 refereed journal articles, and 90 scholarly book chapters on issues such as woman abuse, rural criminology, and criminological theory.
