Rural Criminology Amerotica

This book chronicles key contemporary developments in the social scientific study of various types of male-to-female abuse in rural places and suggests new directions in research, theory, and policy. The main objective of this book is not to simply provide a dry recitation of the extant literature on the abuse of rural women in private places. To be sure, this material is covered, but rural women's experiences of crimes of the powerful like genocidal rape and corporate violence against female employees are also examined. Written by a celebrated expert on the subject, this book considers woman abuse in a broad context, covering forms of violence such as physical and sexual assault, coercive control genocidal rape, abortion bans, forced pregnancy, and corporate forms of violence. It offers a broad research agenda, that examines the multidimensional nature of violence against rural women. Drawing on decades of work in the shelter movement, with activist organizations, and doing government research, DeKeseredy punctuates the book with stories and voices of perpetrators and survivors of abuse.

Additionally, what makes this book unique is that it focuses on the plight of rural women around the world and it introduces a modified version of Liz Kelly's original continuum of sexual violence. An accessible and compelling read, this book will appeal to students and scholars of criminology, sociology, women's studies, cultural studies, policing, geography and all those interested in learning about the

abuse women face in rural areas. Walter S. DeKeseredy is Anna Deane Carlson Endowed Chair of Social Sciences, Director of the Research Center on Violence, and Professor of Sociology at West Virginia University. He has published 26 books, over 100 refereed journal articles, and 90 scholarly book chapters on issues such as woman abuse, rural criminology, and criminological theory.

Comic-book Superstars Hachette UK

This book explores the role of young people in shaping a democratic Spain, focusing on their urban performances of dissent, their consumption of censored literature, political-literary magazines and comic books and their involvement in a newly developed punk scene. After forty years of dictatorship, Madrid became the centre of both a young democracy and a vibrant artistic scene by the early 1980s. Louie Dean Valencia-García skillfully examines how young Spaniards occupied public plazas, subverted Spanish cultural norms and undermined the authoritarian state by participating in a postmodern punk subculture that eventually grew into the 'Movida Madrileña'. In doing so, he exposes how this antiauthoritarian youth culture reflected a mixture of sexual liberation, a rejection of the ideological indoctrination of the dictatorship, a reinvention of native Iberian pluralistic traditions and a burgeoning global youth culture that connected the USA, Britain, France and Spain. By analyzing young people's everyday acts of resistance, *Antiauthoritarian Youth Culture in Francoist Spain* offers a fascinating account of Madrid's youth and their role in the transition to the modern Spanish democracy.

4 All-New Adventures! McFarland Publishing

Rural crime is a fast growing area of interest among scholars in criminology. From studies of agricultural crime in Australia, to violence against women in Appalachia America, to poaching in Uganda, to land theft in Brazil -- the criminology community has come to recognize that crime manifests itself in rural localities in ways that both conform to and challenge conventional theory and research. For the first time, Rural Criminology brings together contemporary research and conceptual considerations to synthesize rural crime studies from a critical perspective. This book dispels four rural crime myths, challenging conventional criminological theories about crime in general. It also examines both the historical development of rural crime scholarship, recent research and conceptual developments. The third chapter recreates the critical in the rural criminology literature through discussions of three important topics: community characteristics and rural crime, drug use, production and trafficking in the rural context, and agricultural crime. Never before has rural crime been examined comprehensively, using any kind of theoretical approach, whether critical or otherwise. Rural Criminology does both, pulling together in one short volume the diverse array of empirical research under the theoretical umbrella of a critical perspective. This book will be of interest to those studying or researching in the fields of rural crime, critical criminology and sociology.
