Faith Versus Fear - Peace In a Pandemic Elsevier

Look around you - how have things changed? One year ago, most of us could have never guessed how different our lives would become. Pandemics were the things you only heard about from history books or they happened in less privileged countries, those with minimal health care and hard living conditions. The month of March 2020 introduced us to new phrases. 'Safer at home', 'Essential workers', 'Social distancing', 'Flattening the curve', and 'Herd immunity', suddenly became topics of discussion. Schools have closed, jobs have been lost, businesses have gone bankrupt. People have died. The ravages of Covid 19 have touched everyone. The difficulties during the world-wide spread of the Coronavirus are unprecedented. The health care system is overwhelmed, medical personnel are physically exhausted and emotionally drained. Authority has been challenged, and some individuals have turned to violence as their fear of losing control has grown. Look around you - it is not pretty. Yet, babies have been born, weddings have taken place, students have graduated, and the internet has provided a way for workers and schools to carry on, albeit a bit differently than before this pandemic. The world has kept turning, the sun and moon have continued as scheduled. How are you doing? Are you living in fear of what might happen or how you might be affected? Has the sorrow of death engulfed you in grief? Are the 'what ifs' causing you to live in anxiety? There is an answer. It is not a religion nor is it a building. His name is God. Faith placed in the things of this world has been uprooted, shaken like a fierce storm. Perhaps it is time to place your trust on solid

ground. Your fears will be replaced with peace in God's perfect plan.

It doesn't matter if you've been a Christian for a short time, a long time, if you're just starting your journey, or if you don't quite believe yet-maybe you have questions about faith and God and how it all fits together in the grand scheme of life. Whatever your spiritual temperature, this book is for you! You're going to learn about the never ending love of God, probe into God's infallible Word, and ask questions that will take you deeper in your faith walk. And in the midst of exploring, your faith will be activated in a mighty way as you embark on an inspirational journey that will release in you a deep belief in what God is able to do and WILL do in your life. Faith allows us to believe that the invisible God can accomplish the physically impossible. Faith dwells on a spiritual plane, not a physical or scientific one and one thing is for sure: there will never be any incongruity between godly faith and true science. The faith I talk about in this book is a greater faith. It is a spiritual inheritance that brings with it a spiritual encounter with God because God wants us to believe that as we work for Him, as we trust in Him, and as we do the will of God, all things will work together for our good. Life is all about you trusting God and believing Him to do His will and in doing His will you know that all these things, including basic necessities like food and shelter, are going to be added to you. Having "all these things" means that through Jesus Christ, we now have access to all we need. I believe there is something very significant for you in these pages, and as I said, the truth of Scripture stands, so whatever your level of faith, this book will shift your thoughts, activate your faith, and then elevate your faith! Hold onto your seat, take a deep breath, and let out a holler to God because your faith is going on a journey!

World's Greatest Wife Frances Lincoln Children's Bks

There has been an explosion of interest and knowledge in the fields of cardiac and respiratory disorders and their treatment. Diagnostic techniques such as ultrasound examination are becoming more widely available and are increasing the opportunity for non-invasive diagnosis. Treatment options are increasing, with an expanding array of pharmaceuticals and advances in surgery. Veterinary surgeons in practice will find this volume a rich source of information, both to maintain knowledge and also to stimulate interest in new clinical skills and diagnostic techniques. The book is well organised, starting with a section on anatomy, pathophysiology and diagnostic techniques. In addition to the approach to the clinical case and basic investigative tests, specialist techniques, such as cardiac catheterization and Doppler echocardiography, are included. Part 2 covers clinical problems, using a comprehensive and problem-oriented approach, followed by discussion of specific areas. The text is supported by tables, charts and colour illustrations to aid the practitioner in making a diagnosis. Part 3 describes medical therapy of both cardiac and respiratory conditions, and Part 4 the surgical techniques applicable to each area. Useful chapters on anaesthesia and thoracic drainage are included. The Editors have brought together an impressive team of international authors to make this extremely valuable and immensely practical book an essential up-to-date manual for the busy clinician. How does a Christian lead? By following today's secular business models, or by simply studying the life of Christ and pursuing a servant-based style? In this insightful, practical book, George Barna has pulled together some of today's top Christian leaders to talk about the subject of Christian leadership. Articles include: The Tasks of a Leader by Ken Gangel, The Character of a Leader by Jack Hayford, Prayer in Leading People by Peter Wagner, and much more. See what today's leaders have to say about leadership, and learn what it takes to serve the Church as a Christ-centered change agent.
