Repair Manuals. Brooklands Book Limited
An absolute sensation when first seen in 1948, in the midst of post-war austerity, the Jaguar XK 120 was both a stunningly beautiful car sold to all the top film stars, and a ruthlessly successful rally machine--and it remains just as effective on both counts today. A perfect XK 120, 140 or 150 could easily cost six figures in pounds, dollars or euros today--so how practical is it to buy a neglected

example and restore it at home? This is the story of how one man completely restored his XK 120 roadster, transforming it from dereliction into a thoroughly beautiful example of this iconic sports car. He also took the time to investigate and incorporate numerous detail improvements, making the car even more usable and practical for today's roads, some 65 years after it was built. Cable TV engineer Bob Exelby has a lifetime of home classic car rebuilds

behind him and shares all the nuggets of information, advice and tips gleaned through his own blood (literally), sweat and tears over 50 years of 'playing with old cars'. Even the most experienced make mistakes, and he freely shares his so that others can avoid them. This book is invaluable if you want to know what makes an XK 'tick', and if it's the classic car for you--and vital if you own or are restoring one. *Jaguar XJ6 1968 thru 1986* Brooklands Book

Limited
This glorious book tells the story of the celebrated lightweight Jaguar C-type, chassis number XKC 051, that Duncan Hamilton and Tony Rolt drove to victory in the 1953 Le Mans 24 Hours. The car went on to have a busy post-works racing career, first with Ecurie Ecosse, then with privateer drivers Bill Smith and Geoffrey Allison. Among its small number of collector custodians in later years, the names Briggs Cunningham in

America and Adrian Hamilton (son of Duncan) in the UK stand out. The development of the C-type is described, focusing on the three lightweights of 1953 with thinner-gauge aluminum bodies, pioneering disc brakes, and aircraft-style fuel tanks. All this is covered in fascinating detail, supported by interviews with drivers and mechanics, a fine collection of period images and studio photographs.

Jaguar X-type Petrol & Diesel Service and

Repair Manual
Motor Racing Publications
With its highly readable text and stunning illustrations, this masterpiece of a book tells the story of the creation, evolution and exploitation of the V12 engine. From the big American V12s of the early 1900s to today's Aston Martin Vanquish V12, these glorious engines have been revered as more than just feats of engineering; in many cases they are respected as works of art. Here is an insightful,

analytical and technical history of the V12 engines that have powered some of the most exciting and dramatic cars ever built for road or track.

This book tells the story of how John Egan gradually overcame the odds

and, piece by piece, rebuilt this great company, winning over the workforce, the overseas dealers and, most important of all, the customers. Working with Margaret Thatcher and her Government, Egan and his team of managers overcame every obstacle, every set-back, every challenge. Again and again, it looked impossible. Yet using innovative techniques, intelligence, eloquence, openness, motor racing and much more, they saved this most charismatic company which has created some of the finest and most

loved motor cars of
all time. It is an
amazing story that
will appeal equally
to car enthusiasts,
those in business
and readers
interested in social
history.
