This glorious book tells the story of the celebrated lightweight Jaguar C-type, chassis number XKC 051, that Duncan Hamilton and Tony Rolt drove to victory in the 1953 Le Mans 24 Hours. The car went on to have a busy post-works

racing career, first with Ecurie Ecosse, then with privateer drivers Bill Smith and Geoffrey Allison. Among its small number of collector custodians in later years, the names Briggs Cunningham in America and Adrian Hamilton (son of Duncan) in the UK stand out. The development of the C-type is described, focusing on the three lightweights of 1953 with thinner-gauge aluminum bodies, pioneering disc brakes, and aircraft-style fuel tanks. All this is covered in fascinating detail, supported by interviews with drivers and mechanics, a fine collection of period images and studio photographs.

James Taylor remembers very well the disappointment among his petrol-head friends when the XJ-S was announced in 1975. It was not a replacement for the legendary E-

type; its colours were uninspired; and its interior was drab. All credit, then, to those people at Jaguar who truly believed in the car and, over a period of nearly 20 years, turned the ugly duckling into a swan. From the moment the XJ-S HE arrived in 1981, there seemed to be renewed hope, and from then on, the car went from strength to strength to become the much-admired grand tourer it always should have been. The book contains a timeline of the key events in the history of the XJ-S and an overview of the evolution of the XJ-S from the XJ27 prototype. Packed with details it gives UK showroom prices through the year and sales in the US by year. Of great interest to all motoring and Jaguar enthusiasts, it is superbly illustrated with 192 colour and black & white photos. James Taylor has been writing professionally about road transport since the late 1970s, his primary interest is in those models that made the British motor industry great.

It was code-named X100 and it was to be Jaguar's latest sports cars, featuring both coupe and convertible coachwork. It was to have an all-new V8 engine and it was to replace the XJS. It would also ultimately have the most powerful forced-induction engine of any production Jaguar road car and it had a lot riding on its success. It was the XK8 - a sleek, purposeful grand tourer in the Jaguar tradition. Graham Robson, one-time Jaguar apprentice and a motoring historian with several other Jaguar books to his credit, tells the story of one of the twentieth century's most beautiful sports car, from its conception

An absolute sensation when first seen in 1948, in the midst of post-war austerity, the Jaguar XK 120 was both a stunningly beautiful car sold to all the top film stars, and a ruthlessly successful rally machine--and it remains just as effective on both counts today. A perfect XK 120, 140 or 150 could easily cost six figures in pounds, dollars or euros today--so how practical is it to buy a neglected example and restore it at home? This is the story of how one man completely restored his XK 120 roadster, transforming it from dereliction into a thoroughly beautiful example of this iconic sports car. He also took the time to investigate and incorporate numerous detail improvements, making the car even more usable and practical for today's roads, some 65 years after it was built.

Cable TV engineer Bob Exelby has a lifetime of home classic car rebuilds behind him and shares all the nuggets of information, advice and tips gleaned through his own blood (literally), sweat and tears over 50 years of 'playing with old cars'. Even the most experienced make mistakes, and he freely shares his so that others can avoid them.

This book is invaluable if you want to know what makes an XK 'tick', and if it's the classic car for you--and vital if you own or are restoring one.

The XJ40, mainstay of Jaguar production from 1986 to 1994, was the last saloon in which Sir William Lyons had any styling involvement. It broke new ground with its technological sophistication and, despite electronic and body problems, was the saloon which reintroduced the marque to a younger buying public. Today the XJ40 -- more reliable than previous models and economic to buy and run -- is an important 'entry level' model for first-time Jaguar buyers and has a large following. It is an ideal candidate for the You & Your series which provides an 'ownership companion' approach for relatively recent cars of strong enthusiast interest.
