Today's unprecedented pace of change leaves many people wondering what new technologies are doing to our lives. Has social media robbed us of our privacy and fed us with false information? Are the decisions about our health, security and finances made by computer programs inexplicable and biased? Will these algorithms become so complex that we can no longer control them? Are robots going to take our jobs? Can we provide housing for our ever-growing urban populations? And has our demand for energy driven the Earth's climate to the edge of catastrophe? John Browne argues that we need not and must not put the brakes on technological advance. Civilization is founded on engineering innovation; all progress stems from the human urge to make things and to shape the world around us, resulting in greater freedom, health and wealth for all. Drawing on history, his own experiences and conversations with many of today's great innovators, he uncovers the basis for all progress and its consequences, both good and bad. He argues compellingly that the same spark that triggers each innovation can be used to counter its negative

consequences. Make, Think, Imagine provides an eloquent blueprint for how we can keep moving towards a brighter future. Akulah Si Jelita Ten Speed Press He is the insignificant Mohd. "Through clever research studies and engaging writing, Dweck

illuminates how our beliefs about our capabilities exert tremendous influence on how we learn and which paths we take in life."—Bill Gates, *GatesNotes* "It's not always the people who start out the smartest who end up the smartest." After decades of research, world-renowned Stanford University psychologist Carol S. Dweck, Ph.D., discovered a simple but groundbreaking idea: the power of mindset. In this brilliant book, she shows how success in school, work, sports, the arts, and almost every area of human endeavor can be dramatically influenced by how we think about our talents and abilities. People with a fixed mindset—those who believe that

abilities are fixed—are less likely to flourish than those with a growth mindset—those who believe that abilities can be developed. Mindset reveals how great parents, teachers, managers, and athletes can put this idea to use to foster outstanding accomplishment. In this edition, Dweck offers new insights into her now famous and broadly embraced concept. She introduces a phenomenon she calls false growth mindset and guides people toward adopting a deeper, truer growth mindset. She also expands the mindset concept beyond the individual, applying it to the cultures of groups and organizations. With the right mindset, you can motivate those

you lead, teach, and love—to transform their lives and your own.

Raja Shehadeh is a passionate hill walker. He enjoys nothing more than heading out into the countryside that surrounds his home. But in recent years, his hikes have become less than bucolic and sometimes downright dangerous. That is because his home is Ramallah, on the Palestinian West Bank, and

the landscape he traverses is now the site of a tense standoff between his fellow Palestinians and settlers newly arrived from Israel. In this original and evocative book, we accompany Raja on six walks taken between 1978 and 2006. The earlier forays are peaceful affairs, allowing our guide to meditate at length on the character of his native land, a terrain of olive trees on terraced hillsides, luxuriant valleys carved by sacred springs, carpets of wild iris and hyacinth and ancient monasteries built more than a thousand years ago. Shehadeh's love for this magical place saturates his renderings of its history and topography. But latterly, as seemingly endless concrete is poured to build settlements and their surrounding walls, he finds the old trails are now impassable and the countryside he once traversed freely has become contested ground. He is harassed by Israeli border patrols, watches in terror as a young hiking companion picks up an unexploded missile and even, on one occasion when accompanied by his wife, comes under prolonged gunfire. Amid the many and varied tragedies of the Middle East, the loss of a simple pleasure such as the ability to roam the countryside at will may seem a minor matter. But in *Palestinian Walks*, Raja Shehadeh's elegy for his lost footpaths becomes a heartbreaking metaphor for the deprivations of an entire people estranged from their land.

BY TIME AND NPR Inspired by
the Cervantes classic, Sam
DuChamp, mediocre writer of spy
thrillers, creates Quichotte, a
courtly, addled salesman obsessed
with television who falls in
impossible love with a TV star.
Together with his (imaginary) son
Sancho, Quichotte sets off on a

picaresque quest across America to
prove worthy of her hand,
gallantly braving the tragicomic
perils of an age where “Anything-
Can-Happen.” Meanwhile, his
creator, in a midlife crisis, has
equally urgent challenges of his
own. Just as Cervantes wrote Don
Quixote to satirize the culture of
his time, Rushdie takes the reader
on a wild ride through a country
on the verge of moral and spiritual
collapse. And with the kind of
storytelling magic that is the
hallmark of Rushdie’s work, the
fully realized lives of DuChamp
and Quichotte intertwine in a
profoundly human quest for love
and a wickedly entertaining
portrait of an age in which fact is
so often indiscernible from fiction.

“Quichotte is one of the cleverest,
most enjoyable metafictional
capers this side of postmodernism.
. . . The narration is fleet of foot,
always one step ahead of the
reader—somewhere between a
pinball machine and a three-
dimensional game of snakes and
ladders. . . This novel can fly, it
can float, it’s anecdotal,
effervescent, charming, and a jolly
good story to boot.”—The Sunday
Times “Quichotte [is] an updating
of Cervantes’s story that proves to
be an equally complicated literary
encounter, jumbling together a
chivalric quest, a satire on

Trump's America and a whole lot of postmodern playfulness in a novel that is as sharp as a flick-knife and as clever as a barrel of monkeys. . . . This is a novel that feeds the heart while it fills the mind.”—The Times (UK)
